

HSM StoreEx HDS 230 -

Medienvernichter HSM StoreEx HDS 230

Sicher, datenschutzkonform und wirtschaftlich. Dieser Medienvernichter schreddert digitale Datenträger in kleine Partikel und macht eine Wiederherstellung unmöglich.

Technical data

Order number:	1778124F	Cutting capacity CD/DVD:	7500 St/h
EAN	4026631075862	Cutting capacity magnetic tapes:	500 St/h
Cutting type:	particle cut	Loading aperture Length x Width x Height:	300 x 165 x 60 mm
Cutting size:	20 x 40-50 mm	Noise level (idle operation):	ca. 53 dB(A)
Security level (DIN 66399):	E-2 H-4 O-1 T-2	Width x Depth x Height:	2879 x 905 x 1712 mm
Voltage / Frequency:	400 V / 50 Hz	Weight:	860 kg
Intake width:	165 mm	Shredder material:	Credit card, CD/DVD, Floppy disk, Hard drives up to 3.5", Magnetic tapes up to 3.5"
Cutting capacity HDD up to 3,5":	360 St/h		
Cutting capacity HDD 2,5":	1500,0 ST/H		

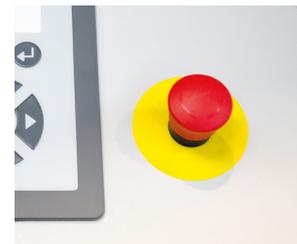

Product information

The discharge conveyor belt makes the collection of the shredded material easy and convenient. Any standard container can be used to collect the material at the end of the conveyor belt.

Thin optical, magnetic and electronic data media can be shredded comfortably and quickly using the input slot.

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch which, when activated, will do just this.

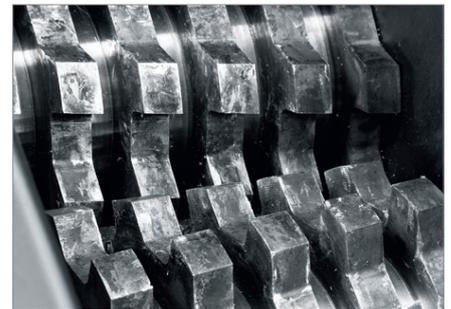

Continuous energy-saving operation with low noise level

This powerful machine provides an excellent cutting performance combined with reliable continuous operation and a low noise level.

Convenient operation via the membrane keypad with display

The selection of the correct functional mode will always ensure maximum throughput for the respective material type.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a long operating life.

LED display for continuous input of media

The large and clearly visible LED display enables the continuous input of media at a comfortable working height.

For decentralised destruction

Data media can be shredded easily in decentralised locations with this machine.

Material anti-jam function

The automatic reverse function rectifies material jams and ensures smooth shredding operations.
