

HSM PF 600

HSM PET PF 600-4 PET-Perforator

The high-performance HSM perforators perforate PET bottles prior to being compressed. In the compression that follows, this pre-processing of the material ensures optimum compact bales. The perforators HSM PET PF 600-4 and PF 1200-4 have very high throughput capacities with excellent price/performance ratios and complete the HSM range of disposal systems.

Product information

Perforation of empty and/or full plastic bottles (max. approx. 2.5 litre) is possible, with or without caps

Sturdy cutting unit – will handle the occasional glass bottle

Throughput per hour up to 37 500 PET bottles (1 litre)

Ideal as an option for the HSM VK- / AK channel baling presses or alternatively as an independent system

Technical data

Order number:	1776000	Width x Depth x Height:	990 x 1200 x 500 mm
Driving power:	6 kW	Industry type:	Food & beverage industry, Industry & Manufacturing, Recycling & Disposal
Voltage / Frequency:	400 V / 50 Hz		
Working width:	600 mm		
Durchsatz (1l Flasche/h):	37500	Press material:	PET bottles, aluminium beverage cans, soft packaging, PET beverage and aluminium cans, soft packaging
