

# HSM 8 TE

## HSM 8 TE horizontal baling press

In terms of performance, efficiency and flexibility our mobile HSM 8 TE small baler is hard to beat. This compact baling press is extremely easy to operate: insert the strapping tape, switch it on and watch it go! The strapping and ejection of the bales is executed with ease. The complete bale ejection means that the compact bales are ejected by the machine directly onto a pallet and can be easily transported to a storage location.

### Product information

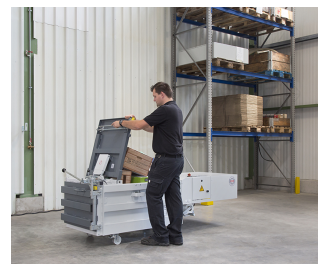

Low overall height, large loading aperture, also suitable for bulky material

Compaction against counterplate by horizontal moving press ram

Feeding: manual

Manual bale strapping with continuous polyester tape

## Technical data
