

HSM ProfiPack C400

HSM ProfiPack C400 packaging machine

With this cardboard perforator, you transform used cardboard into packaging material in one work step. Can be used as a mobile and flexible tabletop device.

Product information

The high-quality materials and the proven "made in Germany" quality guarantee safety and durability.

The induction-hardened solid steel cutting rollers are wear-resistant against cardboard staples and guarantee durability.

The infinitely variable adjustment of the working width with a scale allows the production of cushioning material exactly as required.

Depending on the application, the cushioning volume of the packaging material can be adjusted as required.
