
HSM HL 3521 S

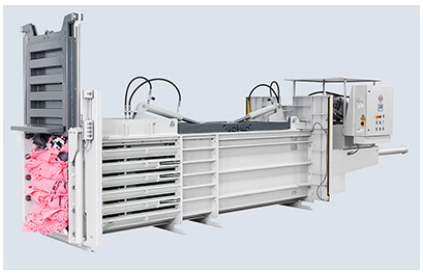
The HSM HL 3521 S, with its exceptionally large loading aperture is the perfect machine for compressing large quantities of paper, cardboard, foils or packaging material and for extremely large and bulky materials. It also has been especially designed for compressing strongly expanding material such as foam.

Technical data

Order number:	6249001	Pressing power:	320 kN
Maximum bale weight:	600 kg	Dimensions of machine (WxDxH):	7900 x 1660 x 2485 mm
Loading aperture (WxH):	800 x 2100 mm		

Product Information:

The extremely large loading aperture makes the unit simple and convenient to load



Hydraulic counterplate for bale removal ensures optimum operating convenience and safety

Multilingual operational guidance and Stored-program controller PLC

Hydraulic loading flap for maximum operating comfort

Safeguarding of the operating area with infrared light curtains for maximum operator safety

Compression of bulky materials. Suitable for: cardboard, film, foams, polystyrene, hollow vessels, metal buckets, barrels and much more

The unique design and controllable positioning of the press ram allows for easy cleaning and servicing

Manual bale strapping with Quick-link wire

high bale weight | Made in Germany | reliable | perfect truck utilisation | 95% volume reduction
