device starts automatically when fed with paper and automatically stops after shredding is complete.

Product Information:

The powerful motor ensures a high cutting capacity and reliable continuous operation.

The stand-by feature ensures a high degree of energy saving when the shredder is not in use.

The document shredder has a sturdy cabinet with a wooden floor and an extra-large door opening angle which facilitates removing and replacing the collecting bag.

For convenience, there are castors on the document shredder so it is easy to move around.

User safety is paramount. A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

The induction-hardened, solid steel cutting rollers with a lifetime warranty can easily cope with staples and paper clips and guarantee durability.
