HSM Powerline SP 4040 V - 3.9 x 40 mm

This compact combination of the FA 400.2 heavy duty document shredder and a vertical baling press is designed for the professional destruction of large quantities of documents, which are then compressed into bales of up to 35 kg.

Technical data

Order number:	2515111144	EAN:	4026631060240
Cutting type:	particle cut	Security level (DIN 66399 / ISO/IEC 21964):	E-3|F-1|O-3|P-4|T-4
Cutting capacity in sheets 80g/m²:	80 - 80	Intake width:	428 mm
Driving power:	6.2 kW	Voltage / Frequency:	400 V / 50 Hz
Pressing power:	44 kN	Bale size (WxHxL):	600 x 500 x 400 mm
Maximum bale weight:	35 kg	Width x Depth x Height:	1117 x 2175 x 1981 mm
Machine weight:	737 kg		

Product Information:

Modern baling press control with membrane keyboard, graphics-capable text display and language selection.

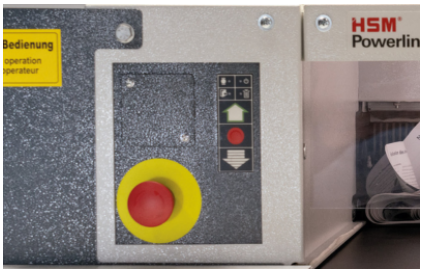
The powerful motor ensures a high cutting capacity and reliable continuous operation.

The removal trolley allows for the easy removal and disposal of the compact bales.

The powerful and energy efficient dust extractor HSM DE 4-75 in dust classification M ensures an optimal extraction due to the high air flow volume, thereby reducing dust emissions (accessory).

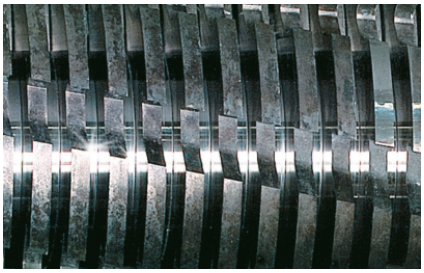
The material feeding is convenient and takes place via the non-slip conveyor belt.

To ensure a consistently high cutting capacity, shredder baler combinations with cross cut have a manual oiler.



It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch which, when activated, will do just this.

The shredded material which has been compressed into compact bales can be cleanly disposed of either in a box or a waste bag. These prevent particles from falling out and ensure clean handling.



The induction-hardened, solid steel cutting rollers can easily cope with staples and paper clips and guarantee durability.
