

# Datasheet Generator

With just a few clicks, you can generate a pdf datasheet for any product you select.

**HSM SECURIO C18 - 1.9 x 15 mm**

**HSM SECURIO C18 document shredder**

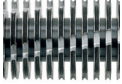

Compact, functional and convenient. With cutting rollers made from hardened steel and a pressure-sensitive safety element. The quiet document shredder with a removable waste container – for demanding users in the private sector or small office.

**Technical data**

Order number:	1912121	Intake width:	230 mm
EAN	4026631056779	Container volume / collecting:	25 l
Cutting type:	particle cut	Collection volume in sheets (80 g):	319
Cutting size:	1,9 x 15 mm	Noise level (idle operation):	ca. 55 - 58 dB(A)
Security level (DIN 66399):	E-4 F-2 P-5 T-5	Width x Depth x Height:	365 x 280 x 542 mm
Cutting capacity in sheets 80g/m²:	6 - 7	Weight:	11 kg
Power consumption:	360 W	Shredder material:	Paper, Staples and paper clips, Credit card
Voltage / Frequency:	220-240 V / 50 Hz		

**Product information**

The hardened steel cutting rollers with a lifetime warranty can easily cope with staples and paper clips and guarantee durability.

The waste container can be easily removed and emptied.

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

## Application examples for HSM datasheets:

- as a machine label for your showroom
- as an offer attachment or
- as a supplement to product advice

**Quiet operation**  
The quiet operating mode reduces noise development in the workplace which is an important consideration for your staff.

**Blue Angel**  
The document shredder has been awarded the Blue Angel certificate for its durable construction, low energy consumption and the use of environmentally friendly materials.

**Anti paper jam function**  
The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

**High level of user safety**  
User safety is paramount. A light pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

**Automatic searching**  
The operation is very easy: the device starts automatically when the paper feed and automatically stops after shredding is complete.

# HSM eXtraWeb

HSM offers registered visitors to the company website [www.hsm.eu](http://www.hsm.eu) a special service.

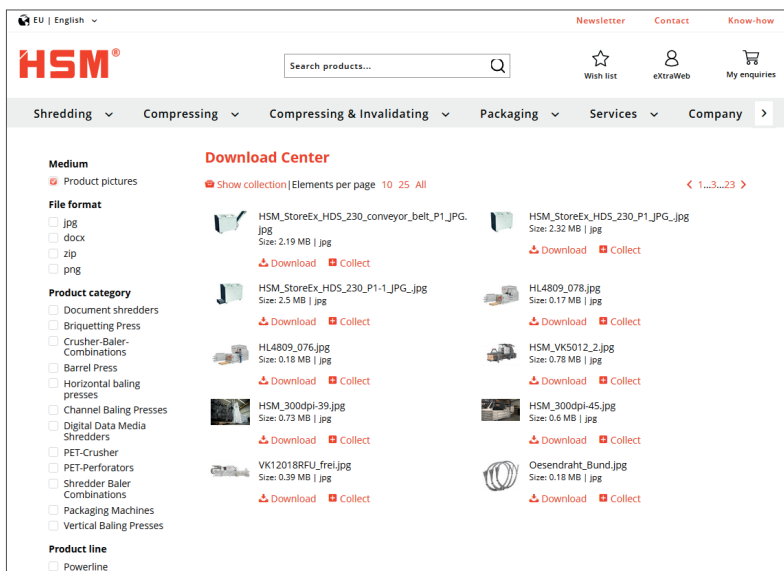

In the so-called **HSM eXtraWeb** you will find current product and marketing information as well as our media database with a multitude of photo and video material in all standard formats.

You can register online via the “Log-in”  in the upper part of the start page. After an internal check, you will receive authorization as soon as possible.

## An overview of our services:

- **Online-Banner:** You can choose between a multitude of online banners about different HSM product lines, which you can include on your website.  
Can't find your format? Then simply get in touch with us.
- **Images:** Under the “images” tab you can find many product pictures and motifs in different file formats.
- **Videos:** In the “videos” tab you will find a multitude of product films and animations, as well as adverts about the HSM products, all ready to download.
- **Date feed:** Are you looking for a general overview of all product and media data, – so that you can include them in your online shop? All the information is contained in our data feed.
- **Individual promotional flyers:** There is a large selection of flyers available. We would be happy to customise these with your logo, promotional equipment and prices. Simply get in touch with your regional sales manager.

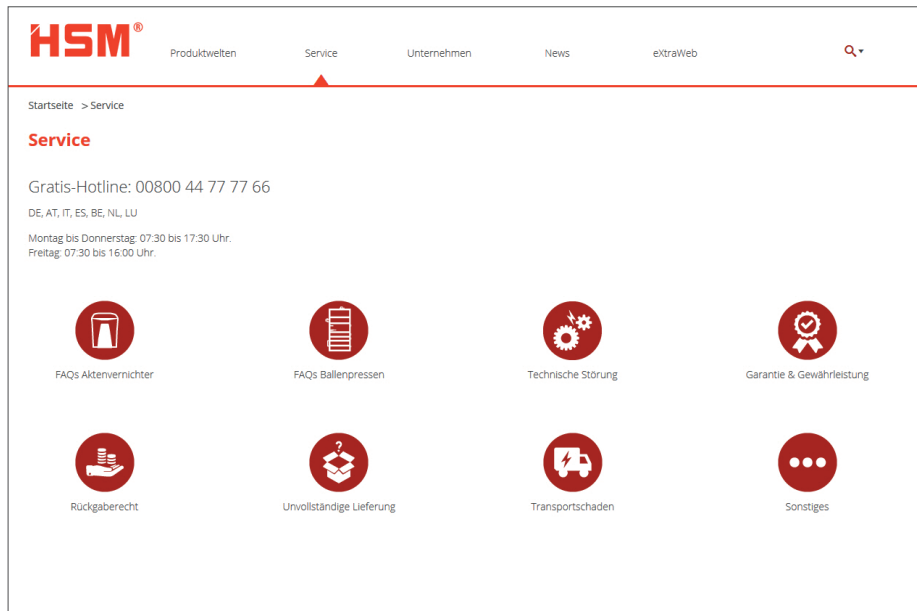

Great Products, Great People.

# HSM Service

Do you need technical support for your product, do you have a complaint or a question about the guarantee? You can use our HSM service portal to contact an HSM customer service operative directly – who will help you personally with all questions about your product.

[www.hsm.eu/service](http://www.hsm.eu/service)

The screenshot shows the HSM Service portal website. At the top, there is a navigation bar with the HSM logo and menu items: Produktwelten, Service, Unternehmen, News, and extraWeb. Below the navigation bar, the page title is 'Service'. The main content area includes a 'Gratis-Hotline: 00800 44 77 77 66' and operating hours: 'Montag bis Donnerstag: 07:30 bis 17:30 Uhr. Freitag: 07:30 bis 16:00 Uhr.' Below this, there are eight service categories represented by icons: FAQs Aktenvernichter, FAQs Ballenpressen, Technische Störung, Garantie & Gewährleistung, Rückgaberecht, Unvollständige Lieferung, Transportschaden, and Sonstiges.

## Your benefits:

- Direct transfer to our technical support for prompt handling.
- Directly accessible by the end user.
- Life made easier for the HSM partner who no longer needs to handle guarantees.
- Fast and simple monitoring of service notifications through pre-defined fields.

## FAQs

Often all that is needed is a little tip to help remedy a fault in an HSM document shredder.

For this reason, go to [www.hsm.eu/service](http://www.hsm.eu/service) for a selection of frequently asked questions and the answers.

# Media-neutral Data

Current product and media data are the basis for successful eCommerce activities. For the electronic exchange of product and media data, HSM employs the uniform format of the **PBS Media Data Standard (MDS)**.

The PBS Media Data Standard (MDS) defines the structure of media data across the whole branch in accordance with the eCl@ss industrial standard. The MDS is based on design rules for text and picture data to ensure a uniform presentation of media data by manufacturers to dealers in the PBS branch. It therefore provides an efficient data basis for catalogues in electronic or printed form.

## Two ways are recommended for the provision of the HSM media data:

### 1.) PBSeasy Media

Access to the HSM media data via the platform PBSeasy Media. The media data of many manufacturers in the PBS branch are available for you here on a single platform in a uniform, structured data format. The data are media-neutral text and picture data which can be used either for Copy and Paste or can be downloaded as individual articles. There is also the possibility of uploading a file to the platform which consists of an article number or GTIN so that the articles listed in the file can be collected in a type of favourite's list for further processing.

### 2.) Data sets in BMEcat format.

In addition to the online platform, there is also the possibility of having data provided so that these can be processed directly in your ERP system. In this case, you will receive the data sets in BMEcat format. This format, which is based on XML technology contains URL picture links which you initially receive as a total stock and then via email as updates. You can also elect to register for the so-called push-method, so that you are automatically informed about changes to the media data.

**The PBS Network GmbH is HSM's service provider for both methods given above. Please contact us and we will be pleased to arrange the contact to the PBS Network.**

# EDI (Electronic Data)

By handling order processes electronically, we would like to help you to optimize your order processes and lower process costs.

HSM has worked for many years with the **PBS Network** as the central service provider of the PBS branch. All relevant business processes between HSM and trading can be handled via the central platform **PBSeasy**.

**A number of different integration levels are available to you here:**

**PBSeasy Online:** Specialist dealers who do not have their own ERP system, can place orders via the PBSeasy online shop.

**PBSeasy Mail:** For specialist dealers who have their own ERP system from which they activate orders. Data can be referenced and orders transmitted using the PBSeasy ASCII format. Via a simple interface you can send and receive master data, net prices and orders as an e-mail. No own investments or converters are needed for this.

**PBSeasy Direct:** For specialist dealers with their own ERP system and their own EDIFACT interface. You can receive article master data and images via the central master data service of the PBS network. Net prices and orders are exchanged directly between you and HSM via EDIFACT.

HSM also has its own EDI converter and is therefore also able to implement bilateral business processes, e.g. in the EDIFACT format.

# HSM YouTube Channel

[www.youtube.com/HSMmediaChannel](http://www.youtube.com/HSMmediaChannel)

Availability of a total of 45 product and application videos on the YouTube video portal.

## Application examples for the HSM YouTube Channels:

- As sales support in the field
- For use in online product presentations
- As supplementary product advice
- Self-explanatory application films for end customers, particularly for large shredders

The screenshot displays the YouTube channel interface for HSMmediaChannel. At the top, there is a search bar and a navigation menu. The channel banner features two men in front of an HSM van. Below the banner, the channel name 'HSMmediaChannel' and subscriber count '1480 Abonnenten' are visible, along with a 'Abonnieren' button. The main content area shows a video titled 'About HSM - Image video' with 2,267 views. Below this, a row of video thumbnails is displayed, including 'Aktivenrichter HSM SECURIO für zu Hause', 'Aktivenrichter HSM SECURIO für den Arbeitspla...', 'Aktivenrichter HSM SECURIO für das...', 'Destructoras de documentos | Fragmentadoras de papel...', and 'Aktivenrichter HSM Pure für den Arbeitsplatz | HSM...'.
