NURSERY AND PRESCHOOL

Akhter Early Learning Centre Nursery and Preschool Mission Statement

To ensure that each child reaches their full potential in a caring, safe and stimulating environment within a supportive local community.

Care not just for children, but also for personal data

How the Akhter Early Learning Centre Nursery and Preschool takes care not just for the children, but also the sensitive information they hold on their children.

With a consistent rating of 'Good Provider' by Ofsted, this vibrant early years learning centre is based in the thriving town of Harlow, Essex. The 124-place setting employs 30 highly qualified staff providing professional childcare for children aged from 3 months to 4 years. With additional awards from Essex County Council for being an Autism friendly setting and ELKLAN (Ascentis, Afasic) Communication friendly setting, this educational Centre is a popular choice for children of local residents. In addition to ensuring children in their care learn and develop well and are kept healthy and safe, the Akhter Early Learning Centre also looks after the sensitive information

they hold on their children with the same level of dedication, destroying any information they hold in the appropriate and relevant manner as soon as it is no longer required. Having looked at what professional shredders are available on the market, the management team at the Akhter Early Learning Centre decided that the HSM SECURIO B26 would meet all their requirements. With German engineering, a 3-year warranty, relevant security level and a suitable bin capacity, this model was just what they needed. Being suitably compact, the unit would fit in to the limited space they had available in their administration office.
