HSM – The Company

Your experts for data protection

If you want to protect data securely, you need products you can trust completely. That is why with every HSM document shredder, you get a machine with our extensive experience and expertise built-in to it.

We are at the forefront with our wide scope of products: our balanced product range makes us a popular partner for security in the home office, in company offices or departments or in archives. There is no doubt about it: if you need to destroy personal data and confidential documents efficiently and easily, we have the right product, whatever your requirement.

Founder and CEO Hermann Schwelling (center) together with the shareholders Christina Schwelling and Harald Schwelling.

A success story for over 50 years

What we value and what gives you more value: a creative spirit, extensive know-how, commitment to quality and excellent customer service all from one source. Since Hermann Schwelling founded the company in 1971, we have developed from a small machinery plant in South Germany to one of the global market leaders for document shredders. We want all our customers to benefit from the proven HSM "Made in Germany" quality, manufactured in our plants in Salem, Frickingen and Reichenbach.

We are committed to Germany as a location. We have approximately 900 employees world-wide. Every single HSM document shredder holds a combination of decades of experience and the focused passion of our highly trained specialists and managers. "Great Products, Great People" for shared success, 100 percent quality and your satisfaction – guaranteed.

HSM Quality

Manufacturing depth across the board

Ever since the early years of the company, we have concentrated on our core competences of shredding and presses. Our quality concept has always been based on German manufacture. "Made in Germany" is synonymous with "Made by HSM". We have a unique manufacturing depth: from the blank to the precision cutting roller, from the first idea to the finished document shredder, from the development and design through

production and project planning – all the way to the service. We put the emphasis on competence across the board. We are in the driving seat, keeping our company on the quality track. You benefit from HSM's high degree of precision, the long operating life of our equipment and an optimum price-performance ratio.

All HSM plants have DIN EN ISO 9001 certification and strive to manufacture sustainable products.

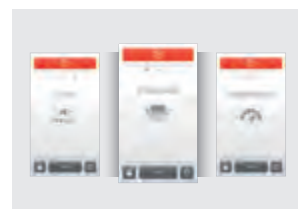

Made by HSM: due to the manufacturing depth in its own plants, HSM can always guarantee the very best product quality.

More than the sum of good single components: proven HSM quality

Using the HSM SECURIO P36i
as an example

Document shredder
assembly

1 Robust: hardened solid steel cutting rollers (with lifetime warranty in security levels P-2 to P-5).

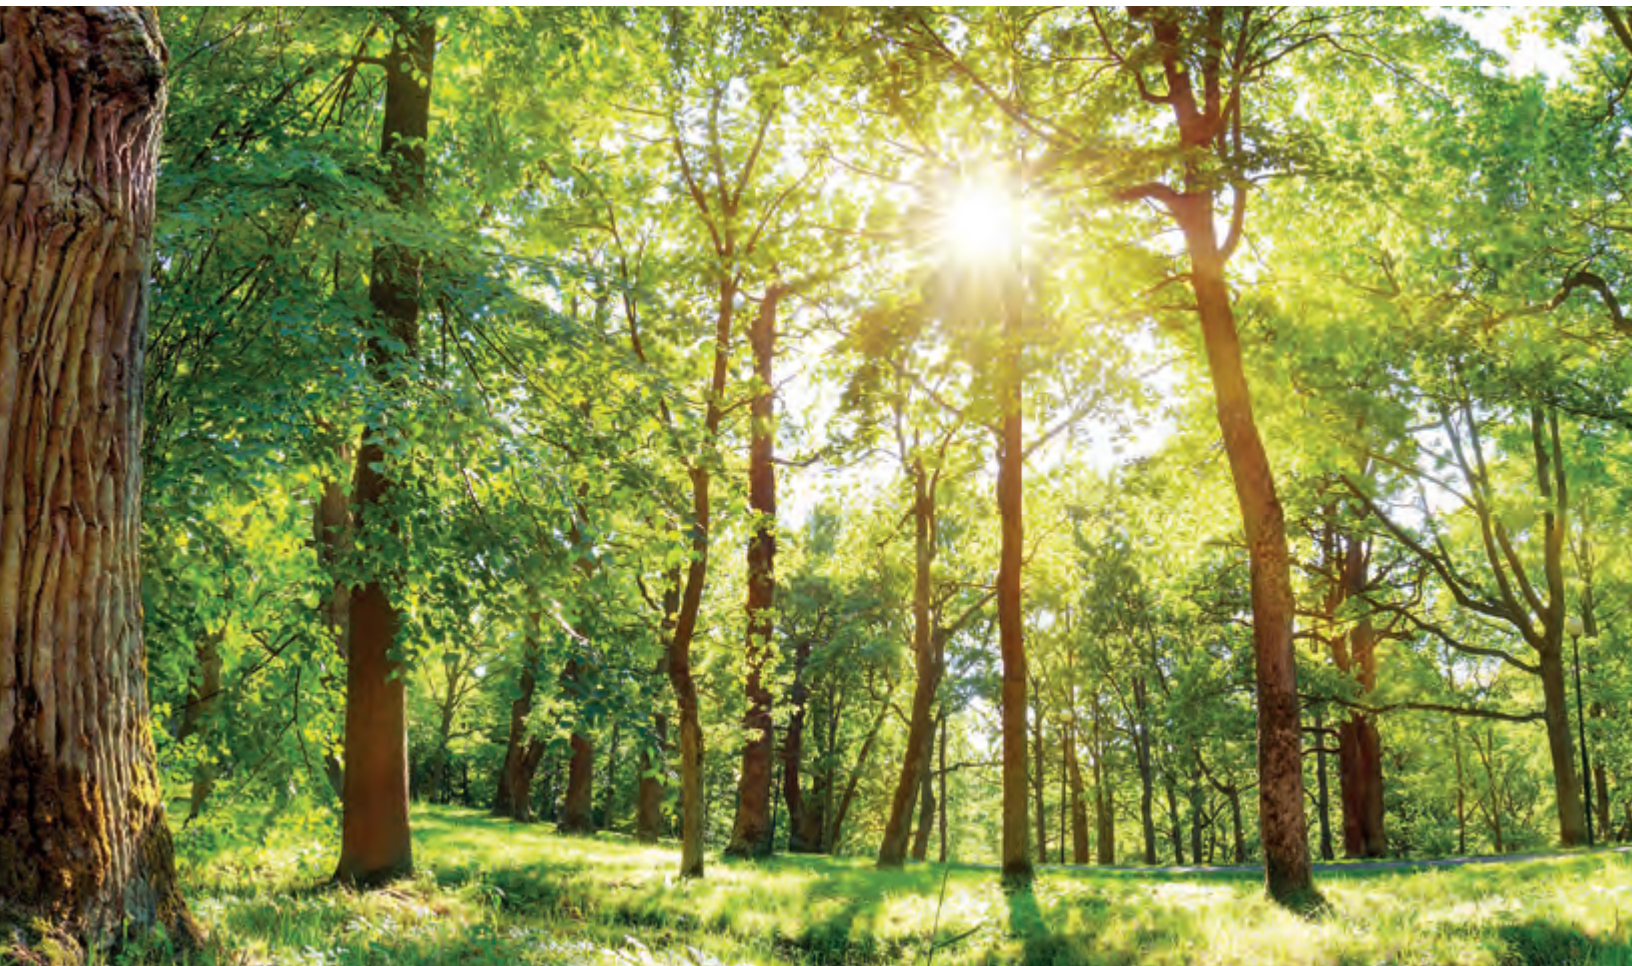

2 Powerful: integrated automatic oiler provides for consistently high cutting capacity.

3 Practical: the filling level of the waste container can be seen at all times through the inspection window.

4 Innovative: the intuitive operation and menu selection via the high resolution touch display.

5 Intelligent: The innovative IntelligentDrive motor and operating technology offers Silent, Standard and Performance operating modes for destroying data efficiently and conveniently.

6 Solid and durable: the document shredder has a high-quality and robust wooden cabinet with an extra large door opening angle and can easily be moved on castors.

Sustainability

Good for the environment, good for you

We are very aware of our responsibility. That is why we manufacture products with a long operating life, which are already energy-efficient and which will not lose their value tomorrow. Every day we take small steps to get even more sustainable results in our production process, in our material selection and in energy consumption: our transport and outer packaging are made from re-usable materials and we recycle metal and plastic manufacturing waste. Since we do not use composite materials, we only have single-source waste material. Moreover, we only

use environmentally friendly, recyclable auxiliary and operating materials. We manufacture as sustainably as possible and always consider the environment in our processes. Nothing is closer to our hearts than preserving our environment and climate for future generations.

HSM Products are environmentally friendly

- The HSM SECURIO AF100 / C14 / C16 and HSM Pure 120 / 220 document shredders use no electricity in stand-by.
- Thanks to the EcoSmart energy management system, the HSM SECURIO AF150 to AF500 and C18 to P44i document shredders automatically switch to stand-by mode after two minutes and are therefore always ready to use. In this mode, the power consumption is less than 0.1 W.
- The HSM Pure shredders feature an energy management system and save power in stand-by mode.
- The HSM Powerline heavy duty document shredders and shredder baler combinations use motors compliant with energy-efficiency class IE3.
- The HSM StoreEx data media shredders have particularly powerful and energy-efficient drives and are designed for quiet continuous operation.
- HSM ProfiPack packaging machines turn used cardboard into high-quality packaging material, thus saving valuable resources.

Social and ecological commitment

We always strive to do our part for the future which is why we support a range of social and environmental projects. HSM therefore gets involved in a range of local, regional and global projects, associations, and support organizations.

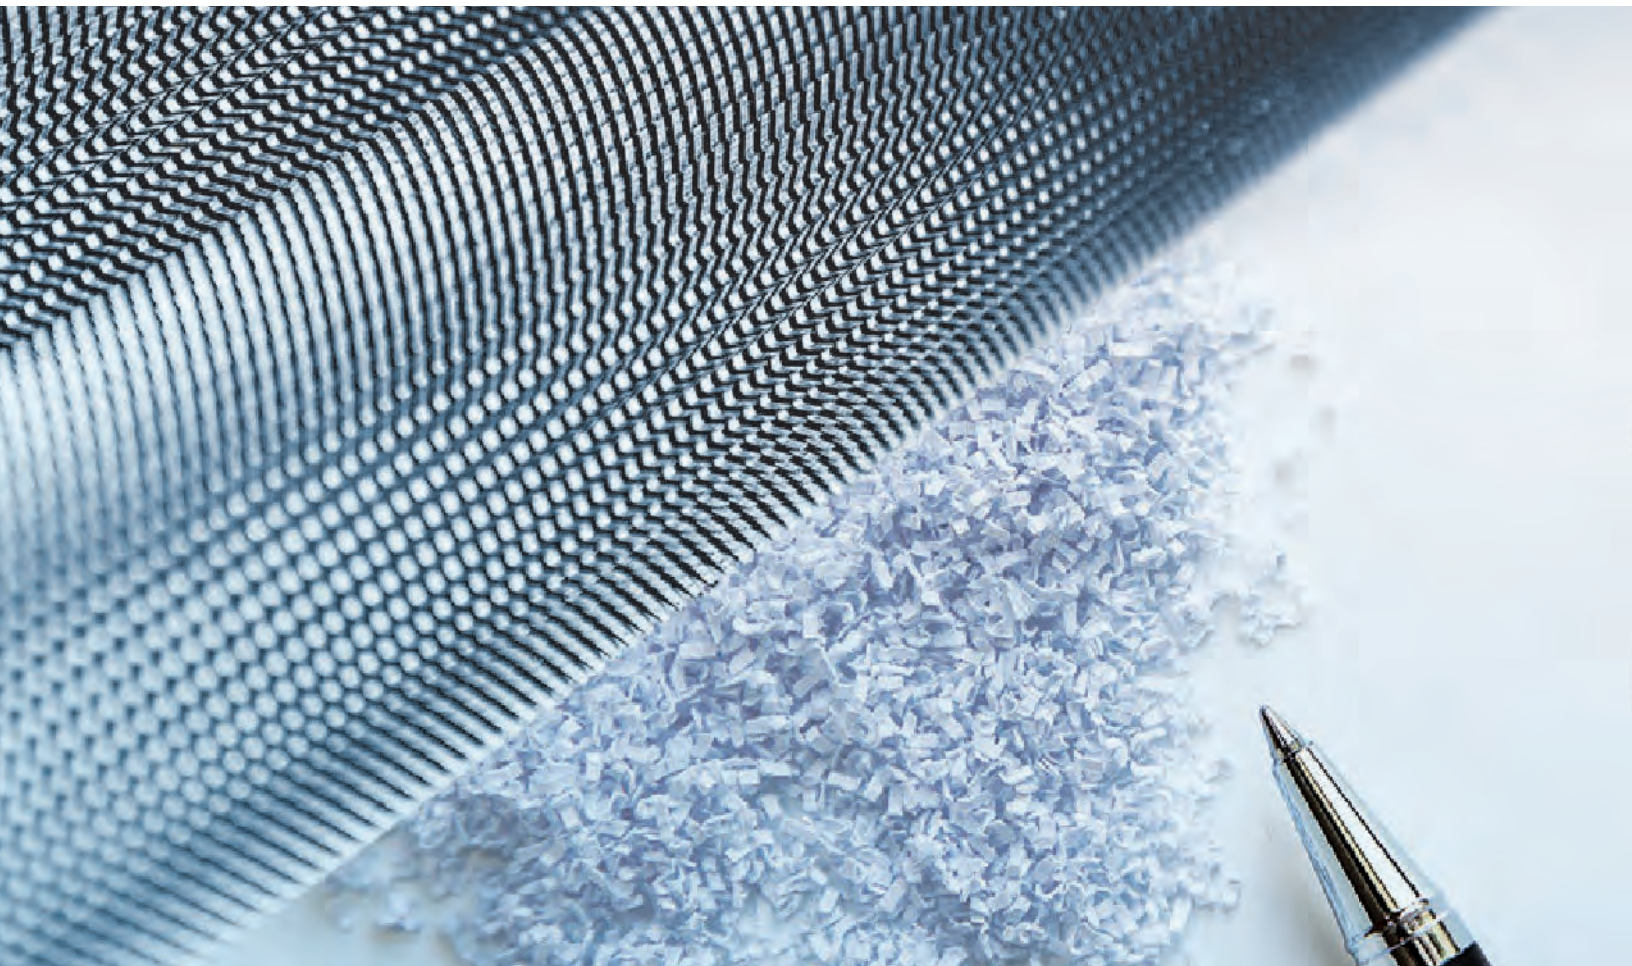

HSM SECURIO awarded the Blue Angel

HSM shredders are characterized by low energy consumption, durable design and the avoidance of materials that are harmful to the environment. These were the reasons that document shredders from the HSM SECURIO product range were awarded the Blue Angel certificate. We are particularly proud of this.

Learn more about this certificate:

Shred securely

It is more important than ever to protect data

No week passes without a report of personal or confidential data ending up in the wrong hands. The consequences range from significant financial losses to a loss of honor and reputation – both privately and in the business world. There is often no consistent concept or data protection endeavors are too

superficial. This is obvious when bank statements end up in the street while the bank is being renovated, lists with the marks from final school exams or patient medical reports are found in public paper containers. Don't be the one responsible for something like that.

HSM offers a tremendous range of document shredders

Do you need a compact document shredder for use at home, a central machine for an open-plan office, a complete disposal station for large quantities of documents or a shredder for your digital data media?

In the HSM product ranges SECURIO, Pure, shredstar, Powerline and StoreEx you will find the machine to match your requirement. In every price class, at every security level, for every performance requirement and handling every type of data media.

Industry / Authorities / Companies

SMEs

Private users

Degree of professionalism

Amount of data to be destroyed

HSM Powerline / HSM StoreEx

Heavy-duty document shredders, shredder baler combinations or data media shredders for commercial operators.

HSM SECURIO

The premium shredder line for all users with the highest standards.

HSM Pure

The document shredders for SMEs, traders, the self-employed and contractors.

HSM shredstar

Stylish – good value – secure. Document shredders for the workplace or the home.

The perfect solution for every requirement

Confidential documents do not belong in the waste bin but in an HSM document shredder. And remember: the more confidential the data is, the higher the security level needs to be. The particle-cut document shredders from DIN/ISO-security level P-4 onwards offer a sufficiently high data protection level

for most private and commercial users. If you have particularly confidential and secret data with a particularly high protection requirement, we recommend you destroy the data using a machine in security level P-5 to P-7.

Photos of the different particle sizes for the data medium paper.

ISO/IEC 21964 (DIN 66399) – the standard for data protection

1 Define your protection class ...

2 ... which leads to the security levels.

Protection class 1

Normal protection requirement for internal data.

Protection class 2

High protection requirement for confidential data.

Protection class 3

Very high protection requirements for particularly confidential and secret data.

Security level 1

General documents to be rendered illegible or invalidated, for instance old advertising material such as catalogues, brochures.

Security level 2

Internal documents to be rendered illegible or invalidated, for instance internal company communications, such as out-of-date instructions, travel guidelines, notices, forms.

Security level 3

Data media with sensitive and confidential data as well as personal data subject to high protection requirements, e.g. company sales reports and tax documents as well as quotations, orders etc. with private address data.

Security level 4

Data media with sensitive and confidential data as well as personal data subject to high protection requirements, e.g. balances and conditions as well as payslips, personal data/files, work contracts, tax documents.

Security level 5

Data media with confidential information of fundamental importance for a person, company or institution, e.g. medical reports, patents, construction documents, strategic papers, competitor analysis, process documentation.

Security level 6

Data media with confidential documentation requiring extraordinary security precautions, e.g. research and development documents, official areas.

Security level 7

For strictly confidential data with the highest security precautions e.g. secret service or military sectors.

For the secure destruction of personal data we recommend security levels P-4 and above.

To find out exactly which security level is the right one for you, just follow the three steps on these two pages. If you have different types of data media to be destroyed, the one requiring the highest security level is relevant for determining which cutting size you need.

3 Select the data media relevant for you.

P  Information in original size	O  Optical data media	T  Magnetic data media	E  Electronic data media	F  Information in reduced form	H  Hard drives with magnetic data media
---	---	--	--	--	---

P-1 ✓ Strip size max. 12 mm	O-1 ✓ Particle size max. 2000 mm ²	T-1 ✓ Mechanically inoperable	E-1 ✓ Mechanically/electronically inoperable	F-1 ✓ Particle size max. 160 mm ²	H-1 Mechanically/electronically inoperable
P-2 ✓ Strip size max. 6 mm	O-2 ✓ Particle size max. 800 mm ²	T-2 ✓ Particle size max. 2000 mm ²	E-2 ✓ Split	F-2 ✓ Particle size max. 30 mm ²	H-2 Damaged
P-3 ✓ Particle size max. 320 mm ²	O-3 ✓ Particle size max. 160 mm ²	T-3 ✓ Particle size max. 320 mm ²	E-3 ✓ Particle size max. 160 mm ²	F-3 ✓ Particle size max. 10 mm ²	H-3 ✓ Deformed
P-4 ✓ Particle size max. 160 mm ²	O-4 ✓ Particle size max. 30 mm ²	T-4 ✓ Particle size max. 160 mm ²	E-4 ✓ Particle size max. 30 mm ²	F-4 Particle size max. 2.5 mm ²	H-4 ✓ Split and deformed several times, particle size max. 2000 mm ²
P-5 ✓ Particle size max. 30 mm ²	O-5 ✓ Particle size max. 10 mm ²	T-5 ✓ Particle size max. 30 mm ²	E-5 ✓ Particle size max. 10 mm ²	F-5 Particle size max. 1 mm ²	H-5 ✓ Split and deformed several times, particle size max. 320 mm ²
P-6 ✓ Particle size max. 10 mm ²	O-6 ✓ Particle size max. 5 mm ²	T-6 ✓ Particle size max. 10 mm ²	E-6 Particle size max. 1 mm ²	F-6 Particle size max. 0.5 mm ²	H-6 Split and deformed several times, particle size max. 10 mm ²
P-7 ✓ Particle size max. 5 mm ²	O-7 Particle size max. 0.2 mm ²	T-7 Particle size max. 2.5 mm ²	E-7 Particle size max. 0.5 mm ²	F-7 Particle size max. 0.2 mm ²	H-7 Split and deformed several times, particle size max. 5 mm ²

HSM document shredders are available for these security levels.

Please see pages 12/13 for an overview of which shredders meet the requirements for a particular security level.

**Much easier than you would expect:
Data protection with HSM!**

Now find the right document shredder for your requirement.

Using the ISO/IEC standard in practice:

TIP!

1. **Determine the protection class** for the data you want to shred.
2. **Select the security level.** The protection class issued then offers you a choice of three security levels. The higher the security level you select, the smaller and therefore more secure the particles are shredded.
3. Check **what type of data media** you need to deal with. Paper, CDs, magnetic storage, electronic storage, hard drives etc.
4. **Now connect data media and security level.** You can now use this information to select the appropriate document shredder.

Scope of application	Protection class	Security level ISO/IEC 21964 (DIN 66399)	Shredder material	Model
Department 8 up to 15 persons Per cycle: up to 80 sheets Collection volume: up to 54 gallons	1	P-2 / O-2 / T-2 / E-2		SECURIO: P44i

3	P-7	F-7	O-7	T-7	H-7	E-7

Shredding different types of data media securely.

You have documents with protection class 2 which need to be shredded. You select security level 4, as this involves strictly confidential personal data. The information is on paper and on DVDs, i.e. data media in the P and O categories. You need a document shredder which can shred both media types. The right security level for paper is P-4, and for DVDs O-3. To find the right document shredder, look for the combination P-4/O-3.

Warranties and services

A decisive advantage – HSM service

We are committed to providing excellent service and we are always delighted to help our customers. This not only applies to our headquarters but also to all HSM service centers in Germany, in Europe and all over the world.

Our warranties and services:

- All HSM SECURIO and Pure document shredders come with a warranty on the steel cutting rollers at security levels P-2 to P-5 for the entire lifetime of the machine (HSM Lifetime Warranty).
- Replacements or repairs are free-of-charge within the guarantee period.
- Money back within 30 days if the customer is not satisfied or an upgrade to a larger machine upon payment of the additional cost.

- Consulting service for all products and data protection queries; please contact US Customer Service 1-800-613-2110 or send an email to customerservice@hsm.us.

Warranties and services

Are you looking for quality, durability and design? Then you have found the perfect answer with HSM SECURIO document shredders. You can expect the highest level of Made in Germany quality here. Regardless of whether you have chosen the AF-series with automatic paper feed, the C-series for the home office, the B-series for the workplace or the P-series with IntelligentDrive for professional use: you are protected with shredders from HSM!

5

year
warranty

5 year warranty on the HSM SECURIO C-, B- and P-series document shredders in security levels P-2 to P-5 according to ISO/IEC 21964 (DIN 66399). 3 year warranty on all other HSM SECURIO document shredders.

cutting roller
warranty

Lifetime warranty on cutting rollers in HSM SECURIO document shredders at security levels P-2 to P-5. Cutting rollers are impervious to staples and paper clips.

Made in
Germany

HSM produces the HSM SECURIO product line in Germany.

The HSM SECURIO document shredders (except AF100) have been awarded the Blue Angel for low energy consumption, durable design and the avoidance of materials that are harmful to the environment.

www.blauer-engel.de/uz174

Time-saving and easy to use

Paper stacks of up to 500 sheets can be put into the magazine and destroyed automatically.

Nanogrip Technology

The document shredders with autoseed have specially developed intake and transport rollers which use Nanogrip Technology. This enables sheet after sheet to be pulled in securely from the stack of paper.

Useful dual function

Manual paper feeding is possible during autoseed stack processing.

Lock-and-Go function

It is possible to secure the paper stack inserted into the magazine against unauthorized access by using the Lock-and-Go function (HSM SECURIO AF500).

HSM SECURIO document shredders with automatic paper feed

Innovative, convenient and time-saving. The autoseed shredders of the AF-series with Nanogrip Technology combine functionality and operating convenience. For reliable and easy destruction of document stacks and single sheets.

In stand-by mode, the document shredder does not consume any power (HSM SECURIO AF100). EcoSmart: exceptionally low power consumption of 0.1 Watts in stand-by mode (from HSM SECURIO AF150 upwards).

HSM SECURIO AF100 document shredder with automatic paper feed

The simple and convenient method of data destruction for the home or small office. The document shredder with an automatic paper feed shreds stacks of paper of up to 100 sheets as well as single sheets of paper effortlessly whilst saving you time.

- Cutting rollers made of hardened steel with lifetime warranty.
- Paper feed with overload protection reduces paper jams.
- Quiet operation minimizes noise development in the workplace.
- Practical automatic start/stop.
- Effortless emptying of the waste container via the removable housing top.
- Level indicator through inspection window.

Quiet operation

The quiet operation minimizes noise development in the workplace.

Anti-paper jam function

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

High level of user safety

A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

HSM SECURIO document shredders for the home or small office

Space-saving, efficient and secure. The C-series impresses with its appealing compact design and ease of use. Perfect for document shredding at the office or at home.

The document shredder uses no electricity in stand-by (HSM SECURIO C14/C16).
EcoSmart: exceptionally low power consumption of 0.1 Watts in stand-by mode (HSM SECURIO C18).

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers with a lifetime warranty in security levels P-2 to P-5 can easily cope with staples and paper clips and guarantee durability.

For continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

HSM SECURIO document shredders for the workplace

Economical, reliable and versatile. The B-series impresses with its high level of performance and maximum functionality. The product range offers document shredders for the workplace or small working groups of up to five people.

High level of user safety

The safety element prevents unintentional entry of materials into the machine and thereby increases user safety.

Automatic start/stop

The operation is very easy: An integrated light barrier automatically starts the device when paper is introduced into the feed and it automatically stops after shredding is complete.

EcoSmart: exceptionally low power consumption of 0.1 Watts in stand-by mode.

For a consistently high cutting performance, this low maintenance document shredder has an external automatic oiler as an option (from HSM SECURIO B24 upwards).

Scope of delivery: Plastic bags (5 pieces), Box insert (1 piece), Special lubricating oil (8.45 fl oz) for cross cut versions

With these options the HSM SECURIO P36i / P40i / P44i document shredders become even more secure

Option + C
Separate CD
cutting unit
(4 x 7 mm)

Option + M
Separate OMDD
cutting unit
(2 x 2 mm)

Separate CD-/OMDD cutting unit

The HSM SECURIO P-series document shredders with the option CD or OMDD have a separate waste bin. The shredded material is therefore segregated and can be cleanly sorted for disposal.

1900 W

55 gal

16 in

HSM SECURIO P44i document shredder

The top document shredder in the HSM SECURIO P-series range with IntelligentDrive and touch display. This powerhouse with 55 gallons of collection volume reliably processes large amounts of paper and is therefore optimal as a department document shredder.

- Cutting rollers made of hardened solid steel.
- Powerful motor for continuous operation.
- The device automatically switches off if pressure is applied to the safety element.
- Light barrier for automatic start/stop.
- Convenient removal and emptying of the collecting bag.
- High quality, robust and mobile thanks to the wooden cabinet with castors.
- Level indicator through inspection window.

HSM Pure document shredders

The innovative HSM Pure document shredder line is not only the epitome of reliability because of its proven "Made in Germany" quality and solid construction, it also impresses with its timeless modern design and easy operation. With a clever combination of traditional engineering and modern design, the shredder range from compact units that sit next to a desk to large powerful document shredders for working groups and entire departments. Document shredders from the HSM Pure product range are the perfect data protection companions.

cutting roller
warranty

5 year warranty on the
HSM Pure document
shredders.

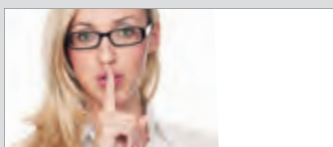

cutting roller
warranty

Lifetime warranty on
cutting rollers in HSM
Pure document shredders.
Cutting rollers are
impervious to staples
and paper clips.

Made in
Germany

HSM produces the
HSM Pure product line
in Germany.

Quiet operation

The quiet operation minimizes noise development in the workplace.

Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

Anti-paper jam function

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

High level of user safety

A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

The stand-by feature ensures a high degree of energy saving when the shredder is not in use.

HSM Pure document shredders for the home or the small office

Unbelievably compact. Always a top performance.

HSM Pure document shredders for the home or the small office. For people who have to shred confidential documents at their desks.

HSM shredstar document shredders

Data privacy concerns everyone! Shred sensitive data at the office or at home with a document shredder from the HSM shredstar series. These devices are characterized by their compact and modern design, their high level of performance and ease of use with an unbeatable price-performance ratio.

Separate CD cutting unit

The separate CD cutting unit easily shreds CDs and DVDs, credit and store cards. The shredded material is sorted into the separate CD waste container and can be disposed of separately.

Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

Quiet operation

The quiet operation minimizes noise development at the workplace.

Anti-paper jam function

The automatic reverse eliminates paper jams and ensures a smooth operation.

The HSM SECURIO High Security document shredders

Touch display

Intuitive operation and multi-language menu selection via the high resolution 4.3" touch display.

IntelligentDrive

The innovative IntelligentDrive motor and operating technology offers Silent, Standard and Performance operating modes for destroying data efficiently and conveniently.

Super Silent

You will be amazed! In Silent operating mode, the document shredder is up to 30 % quieter than in Standard operating mode – and therefore by far our quietest document shredder!

Intelligent paper jam prevention

The machine recognizes very quickly if too much paper has been fed in and reacts autonomously.

EcoSmart: exceptionally low power consumption of 0.1 Watts in stand-by mode.

This maintenance friendly HSM SECURIO High Security document shredder has an automatic oiler included which ensures a consistently high cutting capacity.

HSM Powerline heavy duty document shredders

Data privacy in a big way – the HSM Powerline: the robust technology of the three-phase devices is specially designed for a large throughput and long total operating time. The top of the range model HSM Powerline FA 500.3 processes bound documents and folders up to 550 sheets at a time. The powerful heavy duty document shredders are perfect for large archives or as a central station for document shredding.

Made in
Germany

HSM produces the HSM Powerline heavy duty document shredders in Germany.

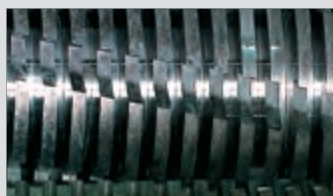

The heavy duty document shredders HSM Powerline FA 400.2 and FA 500.3 meet the highest security standards.

HSM Powerline heavy duty document shredders for the centralised destruction of data media

Convenient and simple. HSM Powerline heavy duty document shredders, designed for applications destroying large quantities of data media.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Functional operator control panel with LED indicator

The operating status of the heavy duty document shredder is shown clearly on the control panel.

Convenient working height

Data media can be processed at a convenient working height.

User safety through emergency off switch

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch.

Effortless emptying

Effortless emptying via a removable trolley.

Low space requirement and narrow transport width

Thanks to the integrated rollers and compact size, the machine can be easily set up at the installation site and saves space.

Mobile on castors

The device can be used on a mobile basis and has smooth-running, stable castors with a parking brake.

Accessories

Loading table extension

The optional extension to the loading table provides more space to store materials.

Additional collecting trolley for shredder material

To ensure a continuous shredding process, an additional collecting trolley can be ordered for the shredder material.

Discharge conveyor belt

The discharge conveyor belt makes the collection of the shredded material easy and convenient. Any standard container can be used to collect the material at the end of the conveyor belt.

HSM Powerline 450.2 heavy duty document shredder

Powerful and durable. This heavy duty document shredder provides for data security in archives or central stations for document shredding.

- Energy efficiency class IE3 compliant motors.
- An automatic reverse reduces paper jams.
- Effortless emptying via a removable trolley with a collecting bag.
- Light barrier for automatic start/stop.
- User safety through emergency off switch.
- Mobile on castors.

Product number	Cutting size	Cutting type	Cutting capacity in sheets	Security level ISO/IEC 21964	Cutting capabilities	Weight in lbs
1503157	1/8" x 1 1/2"	cross	65-85	P-4/O-3/T-4/E-3/F-1		485

Scope of delivery: Plastic bags (5 pieces), Special lubricating oil (8.45 fl oz)

HSM Powerline FA 400.2 heavy duty document shredder

Thanks to its large throughput, this sturdy and durable heavy duty document shredder is perfect for use in archives or central stations for document shredding.

- Convenient material feeding via conveyor belt.
- Energy efficiency class IE3 compliant motors.
- An automatic reverse reduces paper jams.
- Effortless emptying via a removable trolley with a collecting bag.
- User safety through emergency off switch.
- Cross cut document shredders have a manual oiler.
- Practical storage table for data carriers.
- Mobile on castors, with parking brake.

HSM Powerline FA 500.3 heavy duty document shredder

The top model of the HSM Powerline heavy duty document shredder range. This powerhouse is perfect for the shredding of large quantities in archives or central document shredding stations.

- Convenient material feeding via conveyor belt.
- Energy efficiency class IE3 compliant motors.
- An automatic reverse reduces paper jams.
- Effortless emptying via a removable trolley with a collecting bag.
- User safety through emergency off switch.
- Automatic oiler provides for consistently high cutting capacity.
- Multifunction control panel for intuitive operation.
- Practical storage table for data carriers.
- Mobile on castors, with parking brake.

HSM Powerline shredder baler combinations

The shredder baler combinations are complete, compact waste disposal stations. They provide data security up to security level P-5 and compress the shredded material into bales, which can be easily transported and recycled. The HSM shredder baler combinations are built for shredding large quantities.

Made in
Germany

HSM produces the HSM Powerline shredder baler combinations in Germany.

The HSM Powerline shredder baler combinations meet the highest security standards.

HSM Powerline compact disposal stations for industrial applications

Convenient and economic. The HSM Powerline shredder baler combinations are for heavy duty applications shredding large quantities of data.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Functional operator control panel with LED indicator

The operating status of the heavy duty document shredder is shown clearly on the control panel.

Convenient working height

Data media can be processed at a convenient working height.

User safety through emergency off switch

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch.

Clean handling

The shredded material which has been compressed into compact bales can be cleanly disposed of either in a box (HSM SP 4040 V) or a waste bag (HSM SP 4040 V, HSM SP 5080). These prevent particles from falling out and ensure clean handling.

Bale weight can be manually set

The bale weight is variable and depends on your requirement (HSM SP 5080, HSM SP 5088).

Simple commissioning

The combination can be commissioned very easily using Plug-and-Play. The conveyor belt shredder can therefore be combined with a baling press at any time.

Accessories

Loading table extension

The optional extension to the loading table provides more space to store materials.

Pallett holder

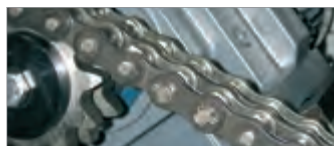

The pallet holder keeps a pallet in place so that the finished bale can be ejected and taken away easily and quickly.

HSM Powerline heavy duty document shredders

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Functional operator control panel with LED indicator

The operating status of the heavy duty document shredder is shown clearly on the control panel.

Convenient working height

Data media can be processed at a convenient working height.

4 / 2.2 kW 17 in

HSM Powerline SP 4040 V shredder baler combination

This compact combination of the FA 400.2 heavy duty document shredder and a vertical baling press is designed for the professional destruction of large quantities of documents, which are then compressed into bales of up to 77 pounds.

- Convenient material feeding via non-slip conveyor belt.
- Continuous operation is possible thanks to the powerful motor with a chain drive.
- Energy efficiency class IE3 compliant motors.
- Light barrier for automatic start of the compression process.
- Automatic return eliminates paper jams.
- Practical removal trolley for the easy removal of bales.
- Cross cut shredder baler combinations have a manual oiler.
- Mobile on castors, with parking brake.

Product number	Cutting size	Cutting type	Cutting capacity in sheets	Security level ISO/IEC 21964	Cutting capabilities	Weight in lbs

2514111147	1/4" x 2"	cross	96-120	P-3/O-2/T-3/E-2		1,624

Dimensions (H x W x D): 77.5" x 42.9" x 79.9", Color: light grey/iron grey

Max. bale size (H x W x D): 23.6" x 19.6" x 15.7" (box size), Pressing power: 4 tons

Scope of delivery: Plastic bags (5 pieces), Special lubricating oil (8.45 fl oz) for cross cut version

7.5 / 4 kW 20 in

HSM Powerline SP 5080 shredder baler combination

This powerful combination of the FA 500.3 heavy duty document shredder and a counterplate baling press provides for data security in archives and compresses the shredded material into bales of between 88 and 176 pounds.

- Convenient material feeding via non-slip conveyor belt.
- Continuous operation is possible thanks to the powerful motor with a chain drive.
- Energy efficiency class IE3 compliant motors.
- Light barrier for automatic start of the compression process.
- Automatic return eliminates paper jams.
- Automatic oiler provides for consistently high cutting capacity.
- Multifunction element for intuitive operation.
- Mobile on castors, with parking brake

Product number	Cutting size	Cutting type	Cutting capacity in sheets	Security level ISO/IEC 21964	Cutting capabilities	Weight in lbs

Dimensions (H x W x D): 71" x 46" x 95", Color: light grey/iron grey

Max. bale size (H x W x D): 22.24" x 19.29" x 31.49" (box size), Pressing power: 8 tons

Scope of delivery: Plastic bags (5 pieces), Special lubricating oil canister (1.32 gallons)

Accessoires and consumable materials: see on page 59

7.5 / 4 kW 20 in

HSM Powerline SP 5088 shredder baler combination

With this waste disposal station, HSM combines the FA 500.3 heavy duty document shredder with a channel baler press. It is therefore perfect for use in archives or central stations for shredding large quantities of documents, which are then compressed into bales of up to 198 pounds.

- Convenient material feeding via non-slip conveyor belt.
- Continuous operation is possible thanks to the powerful motor with a chain drive.
- Energy efficiency class IE3 compliant motors.
- Automatic return eliminates paper jams.
- Simple commissioning of the combination using Plug-and-Play.
- Light barrier for automatic start of the compression process.
- Shredded material is compressed into compact bales, which are manually tied off with three baler straps and can also be disposed of cleanly in a waste bag.
- The bale weight is variable depending on the requirement.
- Automatic oiler provides for consistently high cutting capacity.
- User safety through emergency off rail.
- Multifunction element for intuitive operation.
- Mobile on castors, with parking brake.

HSM StoreEx digital data media shredders

Be careful when disposing of digital storage media! Huge amounts of confidential information are stored on our computers, USB sticks, magnetic tapes, CDs, DVDs and Blu-ray discs, credit cards and loyalty cards. But what happens to these storage devices when they are no longer required? The solution is mechanical destruction! The HSM StoreEx digital data media shredders shred digital and magnetic media into tiny particles, making recovery practically impossible. Safe and efficient to use, data protection compliant.

**Made in
Germany**

HSM produces the HSM StoreEx digital data media shredders in Germany.

The HSM StoreEx digital data media shredders meet the highest security standards.

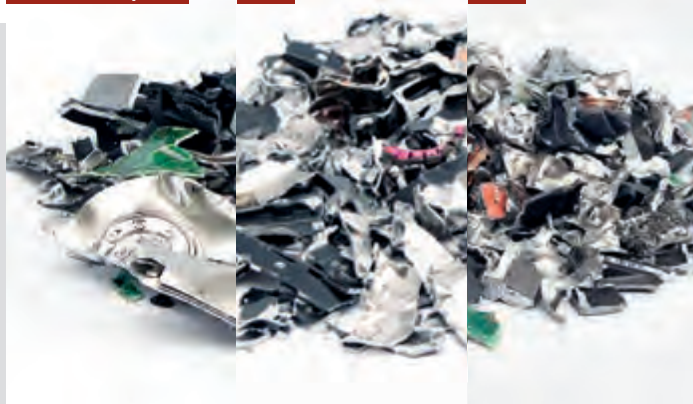

HSM StoreEx
HDS 150:

H-3 security cut

H-4

H-5

The only way to destroy confidential data securely and reliably

The HSM StoreEx digital data media shredders destroy optical, magnetic and electronic storage media in a secure and economical way.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous energy-saving operation with low noise level

This powerful machine provides an excellent cutting performance.

Convenient operation via the membrane keypad

The selection of the functional mode will always ensure maximum throughput for the respective material type, HSM StoreEx HDS 150/230.

Continuous input of media

The large and clearly visible LED display enables the continuous input of media at a comfortable working height, HSM StoreEx HDS 150/230.

For decentralized destruction

Data media can be shredded easily in decentralized locations with this machine, HSM StoreEx HDS 150/230.

Material anti-jam function

The automatic reverse function rectifies material jams and ensures smooth shredding operations, HSM StoreEx HDS 150/230.

Low maintenance

The digital data media shredder has a closed direct drive unit and is therefore a low maintenance machine, HSM StoreEx HDS 150/230.

User safety through emergency off switch

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch, HSM StoreEx HDS 150/230.

Accessories

Material feed conveyor belt

A conveyor belt can be used for a continuous material feed into the digital data media shredder.

Hand scanner

The data media to be destroyed is registered and documented easily and quickly using a hand scanner.

Camera surveillance system

The high resolution camera surveillance system records the data media to be destroyed and documents the whole shredding process from the input to the final destruction.

Dust extractor

The powerful and energy efficient HSM DE 4-240 dust extractor in dust classification H ensures an optimal extraction due to the high air flow volume, thereby reducing dust emissions.

HSM StoreEx HDS 150 digital data media shredder

The HSM StoreEx HDS 150 digital data media shredder destroys digital media devices in a safe and economical way – and is data protection compliant as well.

- The HSM StoreEx HDS 150 destroys data carriers completely securely and reliably at security level "H-3 security cut".
- Digital data media shredder with single-phase power connection.
- Removable waste container for effortless emptying.
- For the decentralized destruction of data media.
- An automatic reverse rectifies material jams.
- Low maintenance due to closed direct drive unit.
- Mobile on castors, with parking brake.

HSM ProfiPack packaging machines

From waste to packaging material! The packaging machines are a brilliant solution for all shipping and storage areas. They perforate used cardboard or bolster it up and make universally usable packaging material which is as good as new. This saves costs and, at the same time, is a sensible and practical contribution to environmental protection.

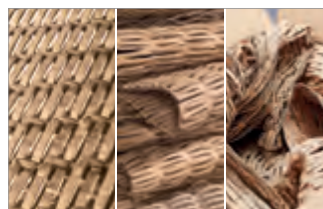

Made in
Germany

HSM produces the HSM ProfiPack packaging machines in Germany.

One work process to cut and perforate

Cutting and bolstering in one work process.

High-quality packaging material

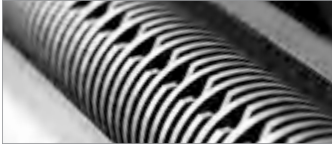

The packaging material can be used wherever required and provides an optimum protection for objects.

Perfectly packed – with HSM ProfiPack

Safely pack different objects easily and save time as well.

HSM ProfiPack packaging machines

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Adjustable working width

The infinitely variable adjustment of the working width with a scale allows the production of cushioning material exactly as required.

Variable cushioning volume

Depending on the application, the cushioning volume of the packaging material can be adjusted as required.

The HSM C400 and P425 with single-phase power plug ProfiPack packaging machine meets the highest security standards.

0.7 kW

HSM ProfiPack C400 packaging machine

With this packaging machine, you can process cardboard into a padding mat or padded filling material in one working step. As a compact tabletop device, it can be used as a mobile device with total flexibility.

- Intuitive operation with LED indicators on a robust keypad.
- Recessed handle for easy lifting of the device.
- Integrated turbo-function resolves blockages.
- Non-slip stand of the packaging machine.

HSM ProfiPack P425 packaging machine

This high-performance packaging machine is used to process a number of layers of cardboard into a padding mat or padded filling material. The professional device is mobile on steering rollers and can be used with total flexibility.

- Particularly sustainable operation due to the high efficiency.
- Fully flexible feed-in speed adjustment (model with single-phase power plug).
- Integrated turbo-function resolves blockages (model with single-phase power plug).
- Mobile on castors, with parking brake.
- Infinitely adjustable working width with scale for cushioning material made to measure.
- Model incl. dust extraction kit:
- Intuitive operation with LED indicators on a robust keypad.
- Connection for dust suction.
- User safety through emergency off switch.
- Dust extractor for dust-free working environment (optional).

HSM Shred bins and carts

Shred bins and carts for storage of soon-to-be-shredded documents. Keeps sensitive and confidential documents safe until it is time to shred. Perfect for copy rooms or offices that have centralized shredding.

Executive security console

The Executive security console (ESC) is manufactured in North America with an anti-phishing paper deflector, improving the security of the container. The wall hugging bag design reduces the chance of paper collecting at the bottom of the unit and the ergonomic and efficient space design makes this a high quality, cost effective solution.

- Efficient, durable and flexible thanks to long lasting and sustainable design.
- Ultra strong piano hinge provides a true 180° to service the unit easier, ultra strong poly hooks and striker plate.
- Durable plastic feet allow movement of the container without damaging the base and protects against moisture.
- One Key Solution: can be keyed alike to consoles, shreddators and padlocks for quicker collection.
- Office grey color.
- 5 year warranty.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070150	36" x 20" x 15.75"	up to 30 gallons	48 lbs
1070070230	24" x 20" x 15.75"	up to 20 gallons	36 lbs

Lockable shred bins

Designed to fit in tight spaces i.e. under a counter or beside a desk. Available in 24, 27 and 30 inch high units.

- Tamper proof lid for confidential disposal.
- Lockable container.
- Lightweight.
- Grips on both ends allow for easy emptying.
- Removable lid.
- Optional nylon bag fits snugly inside container.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070200	24" x 11" x 20"	16 gallons	5 lbs
1070070210	27" x 11" x 20"	20 gallons	6 lbs
1070070220	30" x 11" x 20"	23 gallons	7 lbs

32 gallon Secure collection cart

Conveniently designed secure collection cart in an office friendly design for use with in-house shredders with a built-in hasp allowing to easily lock with confidence.

- Provides secure collection of documents in office settings.
- Hasp located between the front flange and body of the cart for added strength.
- Portable carts with rubber wheels for quiet and smooth operation.
- Handles allow full control when moving cart.
- Lid has molded paper slot for added strength and security.
- 5 year warranty.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070170	36.5" x 19" x 22.5"	up to 125 lbs	27 lbs

65 gallon Secure collection cart

Conveniently designed secure collection cart in an office friendly design for use with in-house shredders with a built-in hasp allowing to easily lock with confidence.

- Provides secure collection of documents in office settings.
- Hasp located between the front flange and body of the cart for added strength.
- Portable carts with rubber wheels for quiet and smooth operation.
- Handles allow full control when moving cart.
- Lid has molded paper slot for added strength and security.
- Molded-in paper deflector for added security.
- 5 year warranty.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070180	40.5" x 25" x 29.5"	up to 250 lbs	35 lbs

95 gallon Secure collection cart

Conveniently designed secure collection cart in an office friendly design for use with in-house shredders with a built-in hasp allowing to easily lock with confidence.

- Provides secure collection of documents in office settings.
- Hasp located between the front flange and body of the cart for added strength.
- Portable carts with rubber wheels for quiet and smooth operation.
- Handles allow full control when moving cart.
- Lid has molded paper slot for added strength and security.
- Molded-in paper deflector for added security.
- 5 year warranty.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070190	44" x 26.5" x 33.75"	up to 350 lbs	45 lbs

175 gallon Secure collection cart

The 175 gallon Secure Collection Cart comes with two hasps, allowing to easily lock with confidence. The cart provides large storage capacity which is why they are a popular choice for protecting large amounts of confidential documents. The bin is designed to provide years of service while keeping everything secure.

- Can transport up to 600 lbs of sensitive documents.
- Made from HDPE and is recyclable.
- Two installed hasps for greater security.
- 6" Rubber wheels for quiet and smooth operation, with wheel brakes for added safety.
- One Key Solution: can be keyed alike to consoles, shredders and padlocks for quicker collection.
- Decades of manufacturing experience and built in compliance with A.N.S.I. standards.
- Narrow body for small hallways.
- 5 year warranty.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070100	48" x 47.75" x 30.5"	up to 600 lbs	100 lbs

Secure desk side confidential paper bin

The Personal Document Container (PDC) is an excellent option for the secure and convenient collection of sensitive documents right at your desk. The lockable PDC fits discreetly under any desk. It's the perfect combination of security and convenience!

- Sturdy lid deters tampering.
- Made from HDPE and is recyclable.
- One Key Solution: can be keyed alike to consoles, shredders and padlocks for quicker collection.
- Fully removable lid for ease of servicing.
- Office grey color.
- Can be shipped via UPS.
- 5 year warranty.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070110	13.125" x 11.875" x 17.75"	up to 9 gallons	4 lbs

Secure desk side e-waste collection bin

The Electronic Waste Container (EWC) is designed to be used anywhere space is a concern. This lockable container is the perfect solution to secure small volume cell phones and other e-waste materials.

- Sturdy lid deters tampering.
- Made from HDPE and is recyclable.
- One Key Solution: can be keyed alike to consoles, shredders and padlocks for quicker collection.
- Fully removable lid for ease of servicing.
- Office grey color.
- Can be shipped via UPS.
- 5 year warranty.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070140	13.125" x 11.875" x 17.75"	up to 9 gallons	4 lbs

HSM ShredVantage plastic console

The HSM ShredVantage plastic console fits into any office decor, offering a central point and keeps sensitive documents safe and secure until ready for destruction. The plastic construction makes deployment a breeze and multiple units can be carried at one time. The HSM ShredVantage is designed to stand up over the years and can be moved without fear of damage or failure.

- JCAHO (Joint Commission) Compliant.
- Same capacity as a wooden console.
- Slam lock with multiple key codes.
- Full plastic construction for maximum durability.
- Can be shipped by courier.
- Resistant to liquids.
- Keyed alike to carts and desk side containers.

Product number	Dimensions (H x W x D)	Bin Capacity	Weight (empty)
1070070120	29" x 21" x 17"	up to 24 gallons	13 lbs

White Glove Delivery

White Glove Delivery

White Glove (WG) is inside delivery service of the shredders and other industrial machines to the location of the customer's choice and the debris is removed. Guaranteed to the ground level if an elevator is not accessible. Only applies within the continental United States.

A bundle unit consists of the shredder and an installed automatic oiler.

Bundle an white glove delivery combination are available for select models.

For more information on Bundles and White Glove Delivery, contact your HSM dealer or Customer Service at 1-800-613-2110 for more information.

Notes on the technical details

Document shredders:

Cutting type:	The material is shredded into either strips or particles.
Cutting size:	Dimension of the strips or particles of the shredded material (depending on the paper quality).
Cutting capacity:	The maximum number of sheets DIN A4, fed lengthways, which can be cut in one cycle. The performance data is determined when the motor is cold and the cutting device is freshly oiled. A weaker mains voltage or a different mains frequency to the one specified could result in less sheet capacity and increased noise during operation. The sheet capacity can vary depending on the structure and properties of the paper and on the way it enters.
Security levels:	According to ISO/IEC 21964-1 (DIN 66399-1).
OMDD:	The OMDD (Optical Media Destruction Device) cutting unit shreds CDs and DVDs and is recommended for shredding confidential information by the Federal Office for Information Security.
Intake/working width:	Maximum effective width of the feed opening.
Motor:	Max. power consumption of the shredder at nominal cutting capacity. Rated power of document shredder drive motor.
Voltage/frequency:	AC mains supply.
Dimensions:	External dimensions of the machine when set up for operation.
Weight:	Net weight of the machine without packaging.
Container/collection volume:	Volume of waste container or collection capacity for cut material before the machine switches off.

Shredder baler combinations:

Pressing power:	Piston cylinder surface multiplied by the maximum hydraulic pressure (theoretical value).
Motor:	Rated power of document shredder and baling press drive motors.
Max. bale size:	The length of the bales varies depending on the expansion force of the compressed material.
Dimensions:	External dimensions of the machine when set up for operation.
Weight:	Net weight without packaging, loaded material, feeding system or options.

Packaging machines:

Effective width:	The maximum effective width of the feed opening.
Infed height:	Height of the intake opening.
Cutting capacity:	The number of layers of cardboard which can be cut in one cycle.
Cutting speed:	This is calculated on the basis of the external diameter and speed of the cutting rollers in idle operation.
Motor:	Max. power consumption of the machine for cutting capacity / in layers.
Voltage/frequency:	Three-phase/alternating current power supply.
Dimensions:	External dimensions of the machine when set up for operation.
Weight:	Net weight of the machine without packaging and options.

Digital data media shredders:

Cutting capacity:	The number of hard drives that can be shredded in one hour.
Cutting size:	The dimensions of the particles that resulted from shredding the material.
Motor:	Rated power of hard drive shredder drive motor.
Voltage/frequency:	Three-phase/alternating current power supply.
Dimensions:	The external dimensions of the machine when set up for operation.
Weight:	The net weight of the machine, without packaging and options.

Terms and Conditions

The general terms and conditions of HSM are the basis of each business transaction with the exception of individual contractual agreements.
