

Great Products, Great People.

Office Technology Product Overview

International
(valid from 01.01.2026)

Good for the environment, good for you.

We are very aware of our responsibility. That is why we manufacture products with a long operating life, which are already energy-efficient and which will not lose their value tomorrow. Every day we take small steps to get even more sustainable results in our production process, in our material selection and in energy consumption: our transport and outer packaging are made from re-usable materials and we recycle metal and plastic manufacturing waste. Since we do not use composite materials, we only have single-source waste material. Moreover, we only use environmentally friendly, recyclable auxiliary and operating materials. We manufacture as sustainably as possible and always consider the environment in our processes. Nothing is closer to our hearts than preserving our environment and climate for future generations.

Our benefits

5

year warranty

5 year warranty on the HSM SECURIO C-, B- and P-series document shredders in security levels P-2 to P-5 according to ISO/IEC 21964 (DIN 66399) and HSM Pure.

3

year warranty

3 year warranty on all other HSM SECURIO document shredders and HSM Classic.

cutting roller warranty

Lifetime warranty on cutting rollers in HSM SECURIO and Pure document shredders at security levels P-2 to P-5. Cutting rollers are impervious to staples and paper clips.

green choice

HSM shredders are characterized by low energy consumption, durable design and the avoidance of materials that are harmful to the environment.

anti jam

The automatic reverse eliminates paper jams and ensures a smooth operation.

safety system

The safety element prevents unintentional entry of materials into the machine and thereby increases user safety.

quiet operation

The quiet operation minimises noise development in the workplace.

Made in Germany

HSM produces all document shredders in Germany, excluding HSM shredstar.

Our automatic oilers - both the integrated as well as the external variants - are available for various models. They reliably ensure a continually high cutting performance.

The HSM SECURIO document shredders have been awarded the Blue Angel

HSM shredders are characterized by low energy consumption, durable design and the avoidance of materials that are harmful to the environment. These were the reasons that document shredders from the HSM SECURIO product range were awarded the Blue Angel certificate. We are particularly proud of this.

Induction hardening

Finishing

Quality control

Manufacturing depth across the board

Ever since the early years of the company, we have concentrated on our core competences of shredding and pressing. Our quality concept has always been based on German manufacture. "Made in Germany" is synonymous with "Made by HSM". We have a unique manufacturing depth: from the blank to the precision cutting roller, from the first idea to the finished document

shredder, from the development and design through production and project planning – all the way to the service. We put the emphasis on competence across the board. We are in the driving seat, keeping our company on the quality track. You benefit from HSM's high degree of precision, the long operating life of our equipment and an optimum price-performance ratio.

We are certified: all HSM plants have DIN EN ISO 9001 certification and strive to manufacture sustainable products.

Made by HSM: due to the manufacturing depth in its own plants, HSM can always guarantee the very best product quality.

More than the sum of good single components: proven HSM quality

Document shredder assembly

Using the HSM SECURIO P36i as an example

1 Robust: hardened solid steel cutting rollers (with lifetime warranty in security levels P-2 to P-5).

2 Powerful: integrated automatic oiler provides for consistently high cutting capacity.

3 Practical: the filling level of the waste container can be seen at all times through the inspection window.

4 Innovative: the intuitive operation and menu selection via the high resolution touch display.

5 Intelligent: the innovative IntelligentDrive motor and operating technology offers Silent, Standard and Performance operating modes for destroying data efficiently and conveniently.

6 Solid and durable: the document shredder has a high-quality and robust wooden cabinet with an extra large door opening angle and can easily be moved on castors.

Your experts for data protection

Personal or confidential data gets into the wrong hands over and over again - sometimes with significant financial consequences. Although data protection laws - such as the General Data Protection Regulation (GDPR) valid since May 2018 - require the correct handling of personal data in Germany and Europe and should therefore prevent data misuse, well thought out concepts and their strict implementation are often missing in practice. Avoid data mishaps with clear processes and workable procedures.

If you want to protect data securely, you need products you can trust completely. That is why with every HSM document shredder, you get a machine with our extensive experience and expertise built-in to it.

We are at the forefront with our wide scope of products: our balanced product range makes us a popular partner for security in the home office, in company offices or departments or in archives. There is no doubt about it: if you need to destroy personal data and confidential documents efficiently and easily in accordance with the GDPR, we have the right product, whatever your requirement.

Office Size: how many people will be using the shredder?

Technical data:

Per cycle	up to 20 sheets	up to 30 sheets	up to 40 sheets	up to 80 sheets
Collection volume	up to 25 litres	up to 85 litres	up to 130 litres	up to 205 litres

Models:	HSM SECURIO AF100, C14, C16, C18	HSM SECURIO AF150, AF300, B22, B24, B26, B32	HSM SECURIO AF500, B34, B35	HSM SECURIO P36i, P40i, P44i
----------------	-------------------------------------	--	--------------------------------	---------------------------------

Our HSM Pure and shredstar product lines also offer a wide range of models for different requirements.

2

The protection requirement:

How high is the protection requirement of the data medium?

Data media with confidential documentation in the case of extraordinary security precautions

- Research documents
- Official areas

Data media with confidential information of fundamental importance

- Medical reports
- Patents
- Construction documents
- Strategic papers

Data media with sensitive and confidential data

- Invoices
- Balance sheets
- Payslips
- Personal data/files
- Tax documents

The security levels, according to ISO/IEC 21964 (DIN 66399)

Original size particle

DIN A4 sheet approx. 6,237 pieces

approx. 2,079 pieces

approx. 389 pieces

Cutting sizes

0.78 x 11 mm

1.9 x 15 mm

3.9 - 4.5 x 30 mm

For secure data destruction, we recommend security level P-4 or higher.

HSM SECURIO document shredders

HSM SECURIO document shredders

Are you looking for quality, durability and design? Then you have found the perfect answer with HSM SECURIO document shredders. You can expect the highest level of Made in Germany quality here. Regardless of whether you have chosen the AF-series with automatic paper feed, the C-series for the home office, the B-series for the workplace or the P-series with IntelligentDrive for professional use: you are protected with shredders from HSM!

HSM SECURIO document shredders with automatic paper feed

Innovative, convenient and time-saving. The autofeed shredders of the AF-series with Nanogrip Technology combine functionality and operating convenience. For reliable and easy destruction of document stacks and single sheets.

Time-saving and easy to use

Paper stacks of up to 500 sheets can be put into the magazine and destroyed automatically.

Nanogrip Technology

The document shredders with autofeed have specially developed intake and transport rollers which use Nanogrip Technology. This enables sheet after sheet to be pulled in securely from the stack of paper.

Useful dual function

Manual paper feeding is possible during autofeed stack processing. (Autofeed paper magazine is for paper only)

Lock-and-Go function

It is possible to secure the paper stack inserted into the magazine against unauthorized access by using the Lock-and-Go function (HSM SECURIO AF350 / AF500).

HSM SECURIO document shredders for the home or small office

Space-saving, efficient and secure. The C-series impresses with its appealing compact design and ease of use. Perfect for document shredding at the office or at home.

Quiet operation

The quiet operation minimises noise development in the workplace.

Anti-paper jam function

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

High level of user safety

A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

HSM SECURIO awarded the Blue Angel.

HSM SECURIO document shredders for the workplace

Economical, reliable and versatile. The B-series impresses with its high level of performance and maximum functionality. The product range offers document shredders for the workplace or small working groups of up to five people.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers with a lifetime warranty in security levels P-2 to P-5 can easily cope with staples and paper clips and guarantee durability.

For continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

High level of user safety

The safety element prevents unintentional entry of materials into the machine and thereby increases user safety.

Automatic start/stop

The operation is very easy: An integrated light barrier automatically starts the device when paper is introduced into the feed and it automatically stops after shredding is complete.

HSM SECURIO document shredders for the large office

Elegant, reliable and powerful. The B-series shredders with a large bin capacity are characterized by a robust construction with maximum functionality. This range of document shredders is designed for use by up to eight people.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers with a lifetime warranty in security levels P-2 to P-5 can easily cope with staples and paper clips and guarantee durability.

For continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

High level of user safety

The safety element prevents unintentional entry of materials into the machine and thereby increases user safety.

Convenient emptying

After opening the door, the reusable collecting bag can be easily removed and emptied.

HSM SECURIO awarded the Blue Angel.

HSM SECURIO document shredders for the department

Data destruction at the highest level. The shredders in the Professional series are equipped with the impressive and innovative IntelligentDrive motor and operating technologies – up to 40 % more performance, intelligent prevention of paper jams and a reduced operating noise level. Perfect for large working groups of up to fifteen people.

Touch display

Intuitive operation and multilanguage menu selection via the high resolution 4.3" touch display.

IntelligentDrive

The innovative IntelligentDrive motor and operating technology offers Silent, Standard and Performance operating modes for destroying data efficiently and conveniently.

Super Silent

You will be amazed! In Silent operating mode, the document shredder is up to 30 % quieter than in Standard operating mode – and therefore by far our quietest document shredder!

Automatic oiler

This maintenance friendly document shredder has an integrated automatic oiler which ensures that you have a consistently high cutting capacity.

HSM Pure document shredders

The innovative HSM Pure document shredder line is not only the epitome of reliability because of its proven "Made in Germany" quality and solid construction, it also impresses with its timeless modern design and easy operation. With a clever combination of traditional engineering and modern design, the shredders range from compact units that sit next to a desk to large powerful document shredders for working groups and entire departments. Document shredders from the HSM Pure product range are the perfect data protection companions.

HSM Pure document shredders for the home or the small office

Unbelievably compact. Always a top performance. HSM Pure document shredders for the home or the small office. For people who have to shred confidential documents at their desks.

Quiet operation

The quiet operation minimises noise development in the workplace.

Automatic start/stop

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

Anti-paper jam function

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

High level of user safety

A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

HSM Pure document shredder for the centralised destruction of data media

Particularly easy. Uniquely practical. The high-performance HSM Pure 740 max document shredder is designed for shredding large amounts of paper.

Quiet continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

External oiler

For a consistently high cutting performance, this low maintenance document shredder has an external automatic oiler.

Convenient emptying

Convenient emptying thanks to the high-quality wooden cabinet with door and pull-out reusable collecting bag.

Alternative waste bin

Mobile 240 litre waste bin can be integrated, in accordance with DIN EN 840 (not included as standard).

HSM Pure document shredder for the centralised destruction of data media

HSM Pure 740 max document shredder

The strong document shredder with a 240 litre bin for demanding in-house data destruction. The robust shredder has a powerful cutting unit with a wide feed-in opening for formats up to DIN A3.

- Cutting rollers made of hardened solid steel with lifetime warranty.
- Paper feed with overload protection reduces paper jams.
- Light barrier for automatic start/stop.
- Optimum stability due to glide feet.
- High quality wooden cabinet with door and steel reinforced base plate against wear.
- Optical display and shut down if the bin is full.
- Correct removal and disposal of the cut material using the particle distributor to disperse the waste material evenly.

Nothing is more convenient!

The HSM Pure 740 max is the new standard for secure, economical and sustainable on-site data destruction. Continuous operation, GDPR compliancy and recycling via the 240 litre waste bin make it the perfect solution for large quantities of paper – and no external service provider needed!

In-service Worldwide with the Military and Security Agencies

Our systems are deployed globally by the military, security agencies and government institutions. When it comes to destroying highly sensitive data, maximum security and reliability are essential. HSM meets international standards and holds certifications, from the NSA for example, along with other recognized approvals.

Whether paper documents or digital data carriers – our solutions guarantee the highest security levels and protect against data misuse. Trust HSM when it comes to safeguarding confidential information.

HSM shredstar document shredders

Data privacy concerns everyone! So shred sensitive data at the office or at home with a document shredder from the HSM shredstar series. These devices are characterised by their compact and modern design, their high level of performance and ease of use with an unbeatable price-performance ratio.

HSM shredstar document shredders with automatic paper feed

Automatic – efficient – secure. The fully automatic document shredder ensures effortless data security. Just insert the paper stack, close the lid – and the machine does the rest itself.

Maximum Time Saving

Thanks to the automatic paper feed, the Autofeed document shredder does the shredding for you! (Autofeed paper magazine is for paper only)

Quiet operation

The quiet operation minimises noise development in the workplace.

Effortless emptying

The waste container can be easily removed and emptied.

Mobile and secure:

Thanks to robust castors with parking brake, the document shredder can be easily moved - and remains securely in one place if required.

HSM shredstar document shredder with automatic paper feed

HSM shredstar Autofeed X200 / X300 document shredder

The Autofeed document shredder shreds up to 200/300 sheets into particles which conform to security level P-4 (4x12 mm), therefore ensuring GDPR compliant data security.

- Maximum time-saving thanks to the automatic paper feed
- Removable waste container for effortless emptying.
- Light barrier for automatic start/stop.
- Level indicator through inspection window.

Product number	Cutting size in mm	Cutting capacity manual / Autofeed in sheets 80 g/m ²	Security level ISO/IEC 21964 (DIN 66399)	Shredder material	Weight in kg

HSM Powerline heavy duty document shredders

Data privacy in a big way – the HSM Powerline: the robust technology of the three-phase devices is specially designed for a large throughput and long total operating time. The top of the range model HSM Powerline FA 500.3 processes bound documents and folders up to 550 sheets at a time. The powerful heavy duty document shredders are perfect for large archives or as a central station for document shredding.

HSM Powerline heavy duty document shredders for the centralised destruction of data media

Convenient and simple. HSM Powerline heavy duty document shredders, designed for applications destroying large quantities of data media.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Functional operator control panel with LED indicator

The operating status of the heavy duty document shredder is shown clearly on the control panel.

Convenient working height

Data media can be processed at a convenient working height.

User safety through emergency off switch

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch.

Effortless emptying

Effortless emptying via a removable trolley with a reusable collecting bag.

Low space requirement and narrow transport width

Thanks to the integrated rollers and compact size, the machine can be easily set up at the operational site and saves space.

Mobile on castors

The device can be used on a mobile basis and has smooth-running, stable castors with a parking brake.

HSM DE 4-75 dust extractor

The powerful and energy efficient dust extractor in dust classification M ensures an optimal extraction due to the high air flow volume, thereby reducing dust emissions.

- Cabinet design with small footprint.
- Quiet and energy-saving operation with sound-insulated fan housing.
- The filters are cleaned manually.
- Meets the requirements of dust classification M.
- Filter protection due to the pre-separation of coarse dust particles by the impact separator.
- Practical automatic start/stop.
- Collection bin for dust.
- Mobile on castors, with parking brake.

Accessories

Loading table extension

The optional extension to the loading table provides more space to store materials.

Additional collecting trolley for shredder material

To ensure a continuous shredding process, an additional collecting trolley can be ordered for the shredder material.

Discharge conveyor belt

The discharge conveyor belt makes the collection of the shredded material easy and convenient. Any standard container can be used to collect the material at the end of the conveyor belt.

Dust extractor

The powerful and energy efficient HSM DE 4-75 dust extractor in dust classification M ensures an optimal extraction due to the high air flow volume, thereby reducing dust emissions.

HSM Powerline shredder baler combinations

The shredder baler combinations are complete, compact waste disposal stations. They provide data security up to security level P-5 and compress the shredded material into bales, which can be easily transported and recycled. The HSM shredder baler combinations are built for shredding large quantities.

Compact disposal stations for industrial applications

Convenient and economical. The HSM Powerline shredder baler combinations are designed for heavy duty use in the destruction of large quantities of data media

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Functional operator control panel with LED indicator

The operating status of the heavy duty document shredder is shown clearly on the control panel.

Convenient working height

Data media can be processed at a convenient working height.

User safety through emergency off switch

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch.

Clean handling

The shredded material which has been compressed into compact bales can be cleanly disposed of either in a box (HSM SP 4040 V) or a waste bag (HSM SP 4040 V, HSM SP 5080). These prevent particles from falling out and ensure clean handling.

Bale weight can be manually set

The bale weight is variable and depends on your requirement (HSM SP 5080, HSM SP 5088).

Simple commissioning

The combination can be commissioned very easily using Plug-and-Play. The conveyor belt shredder can therefore be combined with a baling press at any time.

HSM Powerline SP 4040 V shredder baler combination

This compact combination of the FA 400.2 heavy duty document shredder and a vertical baling press is designed for the professional destruction of large quantities of documents, which are then compressed into bales of up to 35 kg.

- Convenient material feeding via non-slip conveyor belt.
- Continuous operation is possible thanks to the powerful motor with a chain drive.
- Light barrier for automatic start of the compression process.
- Practical removal trolley for the easy removal of bales.
- Cross cut shredder baler combinations have a manual oiler.
- Mobile on castors, with parking brake.

2515111144	3.9 x 40	80	35	P-4/O-3/T-4/E-3/F-1		737

Max. bale size (W x H x L): 600 x 500 x 400 mm (box size), Pressing power: 44 kN

Dimensions (W x D x H): 1117 x 2175 x 1981 mm, Colour: light grey/iron grey

Scope of delivery: plastic bags (5 pieces), Special lubricating oil (250 ml) for particle cut versions

HSM Powerline SP 5080 shredder baler combination

This powerful combination of the FA 500.3 heavy duty document shredder and a counterplate baling press is suitable for data security in archives and compresses the shredded material into bales of between 40 and 80 kg.

- Convenient material feeding via non-slip conveyor belt.
- Continuous operation is possible thanks to the powerful motor with a chain drive.
- Energy efficiency class IE3 compliant motors.
- Light barrier for automatic start of the compression process.
- Automatic return eliminates paper jams.
- Automatic oiler provides for consistently high cutting capacity.
- Multifunction element for intuitive operation.
- Mobile on castors, with parking brake

Product number	Cutting size in mm	Cutting capacity in sheets 80 g/m ²	Bale weight max. in kg	Security level ISO/IEC 21964 (DIN 66399)	Shredder material	Weight in kg
2992209134	10.5 x 40-76	510-550	40-80	P-2/O-2/T-2/E-2		1350

2994209134	3.9 x 40	180-200	40-80	P-4/O-3/T-4/E-3/F-1		1350
2993209134	1.9 x 15	90-100	40-80	P-5/O-4/T-5/E-4/F-2		1480

Max. bale size (W x H x L): 570 x 490 x 800 mm, Pressing power: 80 kN

Dimensions (W x D x H): 1267 x 2474 x 1792 mm, Colour: light grey/iron grey

Scope of delivery: plastic bags (5 pieces), Special lubricating oil (5 l)

HSM Powerline SP 5088 shredder baler combination

With this waste disposal station, HSM combines the FA 500.3 heavy duty document shredder with a channel baling press. It is therefore perfect for use in archives or central stations for shredding large quantities of documents, which are then compressed into bales of up to 90 kg.

- Convenient material feeding via non-slip conveyor belt.
- Continuous operation is possible thanks to the powerful motor with a chain drive.
- Energy efficiency class IE3 compliant motors.
- Automatic return eliminates paper jams.
- Simple commissioning of the combination using Plug-and-Play.
- Light barrier for automatic start of the compression process.
- Shredded material is compressed into compact bales, which are manually tied off with three baler straps and can also be disposed of cleanly in a waste bag.
- The bale weight is variable depending on the requirement.
- Automatic oiler provides for consistently high cutting capacity.
- User safety through emergency off rail.
- Multifunction element for intuitive operation.
- Mobile on castors, with parking brake.

Product number	Cutting size in mm	Cutting capacity in sheets 80 g/m ²	Bale weight max. in kg	Security level ISO/IEC 21964 (DIN 66399)	Shredder material	Weight in kg

Dimensions (W x D x H): 1273 x 3281 x 1792 mm, Colour: light grey/iron grey

Scope of delivery: plastic bags (5 pieces), special lubricating oil (5 l), Strapping tape WG 30 (3 rolls of 500m each)

HSM DE 4-75 dust extractor

The powerful and energy efficient dust extractor in dust classification M ensures an optimal extraction due to the high air flow volume, thereby reducing dust emissions.

- Cabinet design with small footprint.
- Quiet and energy-saving operation with sound-insulated fan housing.
- The filters are cleaned manually.
- Meets the requirements of dust classification M.
- Filter protection due to the pre-separation of coarse dust particles by the impact separator.
- Practical automatic start/stop.
- Collection bin for dust.
- Mobile on castors, with parking brake.

Product number	Dust classification	Max. negative pressure in Pa	Max. air flow volume in m ³ /h	Weight in kg

Compressed air required: 1/4" / 4-6 bar

Accessories

Loading table extension

The optional extension to the loading table provides more space to store materials.

Pallet holder

The pallet holder keeps a euro pallet in place so that the finished bale can be ejected and taken away easily and quickly.

Dust extractor

The powerful and energy efficient HSM DE 4-75 dust extractor in dust classification M ensures an optimal extraction due to the high air flow volume, thereby reducing dust emissions.

HSM StoreEx digital data media shredders

Be careful when disposing of digital storage media! Huge amounts of confidential information are stored on our computers, USB sticks, magnetic tapes, CDs, DVDs and Blu-ray discs, credit cards and loyalty cards. But what happens to these storage devices when they are no longer required? The solution is mechanical destruction! The HSM StoreEx digital data media shredders shred digital and magnetic media into tiny particles, making recovery practically impossible. Safe and efficient to use, data protection compliant.

The only way to destroy confidential data securely and reliably

The HSM StoreEx digital data media shredders destroy optical, magnetic and electronic storage media in a secure and economical way.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous energy-saving operation with low noise level

This powerful machine provides an excellent cutting performance combined with reliable continuous operation and a low noise level.

Convenient operation via the membrane keypad

The selection of the correct functional mode will always ensure maximum throughput for the respective material type, HSM StoreEx HDS 150/230.

Continuous input of media

The large and clearly visible LED display enables the continuous input of media at a comfortable working height, HSM StoreEx HDS 150/230.

For decentralised destruction

Data media can be shredded easily in decentralised locations with this machine, HSM StoreEx HDS 150/230.

Material anti-jam function

The automatic reverse function rectifies material jams and ensures smooth shredding operations, HSM StoreEx HDS 150/230.

Low maintenance

The digital data media shredder has a closed direct drive unit and is therefore a low maintenance machine, HSM StoreEx HDS 150/230.

User safety through emergency off switch

It may be necessary to stop the machine immediately so we have equipped the device with an emergency off switch, HSM StoreEx HDS 150/230.

HSM StoreEx digital data media shredders: the only way to destroy confidential data securely and reliably

HSM StoreEx OMDD 130 digital data media shredder

This digital data media shredder is specifically designed for the shredding of CDs/DVDs and credit cards with the highest security requirements.

- Digital data media shredder with single-phase power connection.
- High quality materials and "Made in Germany" quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Powerful, energy-saving power unit enables long operation.
- High degree of energy saving due to stand-by.
- The device automatically switches off if pressure is applied to the safety element.
- Safety element prevents unintentional entry and serves as a splinter shield.
- Light barrier for automatic start/stop.
- An automatic reverse rectifies material jams.
- Optical display and shut down if the bin is full.
- Can be moved on castors.

Product number	Cutting size in mm	Cutting capacity in items/h	Security level ISO/IEC 21964 (DIN 66399)	Shredder material	Weight in kg

Dimensions (W x D x H): 670 x 487 x 1021 mm, Colour: white (O-6)

Good for the environment, good for you

Sustainable action protects the environment and pays off. Every data storage device contains valuable raw materials that should definitely be recycled and reused. Did you know that the world's richest gold and silver deposits are not in the ground but in electronic waste? Discarded storage media, cell phones, tablet computers and other electronic devices contain 40 to 50 times more precious metal than most ore deposits.

And that's your benefit: HSM media shredders not only destroy storage media with absolute reliability, they also produce valuable material that is in high demand worldwide and can be easily marketed.

Talk to your HSM sales representative and find out more.

HSM StoreEx HDS 150 digital data media shredder

H-3

The HSM StoreEx HDS 150 digital data media shredder destroys digital media devices in a safe and economical way – and is data protection compliant as well.

- The HSM StoreEx HDS 150 destroys data carriers completely securely and reliably at security level "H-3 security cut".
- Digital data media shredder with single-phase power connection.
- Removable waste container for effortless emptying.
- For the decentralised destruction of data media.
- An automatic reverse rectifies material jams.
- Low maintenance due to closed direct drive unit.
- Mobile on castors, with parking brake.

Product number	Cutting size in mm	Device type	Cutting capacity in items/h	Security level ISO/IEC 21964 (DIN 66399)	Shredder material	Weight in kg

Dimensions (W x D x H): 1200 x 815 x 1325 mm, Colour: light grey/iron grey

Dimensions of feed-in opening (W x D x H): 165 x 290 x 60 mm

HSM StoreEx HDS 230 digital data media shredder

H-4
H-5

Secure, data protection compliant and economical. This digital data media shredder shreds digital data carriers into little particles and makes data recovery virtually impossible.

- Removable waste container for effortless emptying (model with removable waste container).
- Discharge conveyor belt for transporting material on the right or left (model with discharge conveyor belt).
- For the decentralised destruction of data media.
- Time-saving direct input of CDs/loyalty cards.
- An automatic reverse rectifies material jams.
- User safety due to emergency off switch.
- Low maintenance due to closed direct drive unit.
- Small footprint thanks to the compact design.
- The control cabinet is easily accessible from the front of the machine.
- Mobile on castors, with parking brake.

Accessories

Material feed conveyor belt

A conveyor belt can be used for a continuous material feed into the digital data media shredder.

Hand scanner

The data media to be destroyed is registered and documented easily and quickly using a hand scanner.

Camera surveillance system

The high resolution camera surveillance system records the data media to be destroyed and documents the whole shredding process from the input to the final destruction.

Dust extractor

The powerful and energy efficient HSM DE 4-130 dust extractor in dust classification H ensures an optimal extraction due to the high air flow volume, thereby reducing dust emissions.

A decisive advantage – HSM service

We are committed to providing excellent service and we are always delighted to help our customers. This not only applies to our headquarters but also to all HSM service centres in Germany, in Europe and all over the world.

Our warranties and services:

- All HSM SECURIO and Pure document shredders come with a warranty on the steel cutting rollers at security levels P-2 to P-5 for the entire lifetime of the machine (HSM Lifetime Warranty).
- Consulting service: individual product consulting, data protection advice, service support and advice on spare part requirements.

- Training and seminars on products, data protection and service.
- Consulting service for all products and data protection queries; please call +49 7554 2100-0 or send an email to info@hsm.eu.

Find out more about our services at:
www.hsm.eu/en/service

HSM ProfiPack packaging machines

From waste to packaging material – sustainable and multifunctional. The packaging cushioning machines transform used cardboard into high-quality packaging material: depending on the device, either flexible cushioning mats or practical filling chips are produced. A smart solution for shipping and storage areas that not only saves costs but also makes an active contribution to environmental protection.

Perfectly packaged - the safe choice for all goods

Used cardboard boxes are turned into high quality packaging material. Whether you need bolstered up padding mats for maximum flexibility when padding articles, flat padding mats for padding flat surfaces to protect sensitive exteriors or cardboard chips for filling up small empty spaces – the HSM ProfiPack family lets you package cleverly, efficiently and without using plastic.

Solid steel cutting rollers

The induction-hardened, solid steel cutting rollers are robust and ensure a high level of durability.

Continuous operation

The powerful motor ensures a high cutting capacity and reliable continuous operation.

Adjustable working width

The infinitely variable adjustment of the working width with a scale allows the production of cushioning material exactly as required.

Variable cushioning volume

Depending on the application, the cushioning volume of the packaging material can be adjusted as required.

One work process to cut and perforate

Cutting and bolstering in one work process.

High-quality packaging material

The packaging material can be used wherever required and provides an optimum protection for objects.

Perfectly packed – with HSM ProfiPack

Safely pack different objects easily and save time as well.

Outlet for cardboard chips HSM ProfiPack ecoChip.

The cardboard chips are output from the rear of the machine.

HSM ProfiPack C400 packaging machine

With this packaging machine, you can process cardboard into a padding mat or padded filling material in one working step. As a compact tabletop device, it can be used as a mobile device with total flexibility.

- Intuitive operation with LED indicators on a robust keypad.
- Integrated turbo-function resolves blockages.
- Recessed handle for easy lifting of the device.
- Non-slip stand of the packaging machine.

🔌 single-phase power plug

HSM ProfiPack P425 packaging machine

This high-performance packaging machine is used to process a number of layers of cardboard into a padding mat or padded filling material. The professional device is mobile on steering castors and can be used with total flexibility.

- Particularly sustainable operation due to the high efficiency.
- Fully flexible feed-in speed adjustment (model with single-phase power plug).
- Infinitely adjustable working width with scale for cushioning material made to measure.
- Intuitive operation with LED indicators on a robust keypad.
- User safety through emergency off switch.
- Integrated turbo-function resolves blockages (model with single-phase power plug).
- Mobile on castors, with parking brake.

Model incl. adapter set for dust extractor

- Connection for dust suction.
- Dust extractor for dust-free working environment (optional).

HSM ProfiPack ecoChip packaging machine

The HSM ProfiPack ecoChip transforms used cardboard boxes into packaging material - ideal for sending non-fragile products.

- Particularly sustainable operation due to the high efficiency.
- Fully flexible feed-in speed adjustment
- Intuitive operation with LED indicators on a robust keypad.
- User safety through emergency off switch.
- Integrated turbo-function resolves blockages (model with single-phase power plug).
- Mobile on castors, with parking brake.
- The cardboard chips are dispensed from the back of the machine.
- The cardboard chips stabilize the goods in the package, fill up empty spaces and cushion impacts - and all that without plastic.

Model incl. adapter set for dust extractor

- Connection for dust suction.
- Dust extractor for dust-free working environment (optional).

HSM ProfiPack ecoChip

Winner of the Benelux Office Product Award 2025 – for sustainable innovation in packaging.

HSM DE 1-8 dust extractor

The compact and powerful dust extractor in dust classification M is the perfect addition for clean operations with the HSM ProfiPack P425 packaging machine. Cardboard and dust particles are extracted reliably.

- High quality materials and "Made in Germany" quality for safety and durability.
- Compact and space-saving design.
- Quiet operation minimises noise development in the workplace.
- Low operating costs due to cleanable long life cartridge filters.
- Pulse-jet filter cleaning nozzle for easy cleaning of the long life filter cartridges.
- Easy disposal of dust using the bin in the dust collection drawer.
- Handle enables mobile use.

Bolstered up material

HSM ProfiPack C400 and P425

Ensures impacts are absorbed and provides stability, so that even fragile articles are undamaged when they reach the customer. The flexible padding mats match the shape of your products exactly - ideal for sensitive ceramics, glass and other breakable materials.

Material, not bolstered up

HSM ProfiPack C400 and P425

Does not only protect from impacts, but also reduces plastic waste and packaging costs. Particularly suitable for the secure transport of heavy, sensitive objects, such as parts, machine components or spare parts.

Packaging chips

HSM ProfiPack ecoChip

Cardboard chips as packaging and filling material. The cardboard chips stabilize the goods in the package, fill up empty spaces and absorb impacts - all without using plastic.

ISO/IEC 21964 (DIN 66399) – the standard for data protection

Step by step to the right security level.

1 Define your protection class ...

2 ... which leads to the security levels.

1 Normal protection requirement for internal data.

2 High protection requirement for confidential data.

3 Very high protection requirements for particularly confidential and secret data.

  HSM shredders are available for these security levels.

HSM Consumable materials

Plastic bags

Colour: transparent / Packaging unit (PU) = 10 pieces

Product number	For Model	Dimensions in mm (W x D x L)	Weight in kg per 100 pcs.
1661995150	B22, B24, AF150, AF300, AF350, 420, 104.3, 105.3, 108.2	348 x 195 x 800	3.8
1330995100	B26, B32, AF500, 530, 125.2	440 x 370 x 850	4.3
1410995100	B34, 225.2, 386.2/1.1	530 x 340 x 1000	10.0
1442995110	B35, P36i, P36, P40i, P40, 630, 740, 730, 830, 940, 390.3/2/1, 411.2/1, 412.2	525 x 425 x 1100	10.0

Colour: transparent / Packaging unit (PU) = 100 pieces

Product number	For Model	Dimensions in mm (W x D x L)	Weight in kg per 100 pcs.
1661995050	B22, B24, AF150, AF300, AF350, 420, 104.3, 105.3, 108.2	348 x 195 x 800	3.8
1330995000	B26, B32, AF500, 530, 125.2	440 x 370 x 850	4.3
1410995000	B34, 225.2, 386.2/1.1	530 x 340 x 1000	10.0
1442995000	B35, P36i, P36, P40i, P40, 630, 740, 730, 830, 940, 390.3/2/1, 411.2/1, 412.2	525 x 425 x 1100	10.0

Colour: transparent / Packaging unit (PU) = 25 pieces

Product number	For Model	Dimensions in mm (W x D x L)	Weight in kg per 100 pcs.
1452995000	P44i, P44, 450.2, P450	570 x 545 x 1150	20.5
1513995000	740 max, FA 400.2 (230 l)FA 490.1/FA 500.2 (180 l)	575 x 440 x 1500	26.0
1513995100	FA 400.2 (460 l) FA 490.1/FA 500.2 (360 l)	575 x 900 x 1500	46.5
6212595000	FA 400 (340 l)	850 x 750 x 1800	46.5
6111995200	SP 4040 V, SP 4940 V	600 x 400 x 1000	17.5
6209995000	SP 4980, SP 5080	580 x 500 x 1400	27.0
6515995000	SP 4988, SP 5088	560 x 540 x 1200	22.6
6205595000	SP 50100, FA 500.3	700 x 620 x 1500	33.0

Cardboard box

for HSM SECURIO and HSM Classic document shredders / Packaging unit (PU) = 1 piece

Product number	For Model	Dimensions in mm (W x H x L)
1820995200	HSM SECURIO B32, AF500	412 x 524 x 255
1840995200	HSM SECURIO B34	457 x 529 x 290
1920995200	HSM SECURIO B35	375 x 519 x 528
1850995200	HSM SECURIO P36i, P36, P40i, P40	495 x 554 x 395
1870995200	HSM SECURIO P44i, P44	594 x 560 x 434
1270995200	HSM Classic 125.2	382 x 275 x 569
1340995200	HSM Classic 225.2	429 x 535 x 357
1365995200	HSM Classic 390.3	527 x 589 x 390
1565995200	HSM Classic 411.2	532 x 569 x 400

for HSM Powerline shredder baler combinations / Packaging unit (PU) = 20 pieces

Product number	For Model	Dimensions in mm (W x H x L)
6111995101	SP 4040 V, SP 4090 V	590 x 485 x 390

for HSM StoreEx digital data media shredder and HSM DE dust extractors / Packaging unit (PU) = 1 piece

Product number	For Model	Dimensions in mm (W x H x L)
1767995200	HSM StoreEx OMDD 130	530 x 262 x 400

Special lubricating oil

for document shredders and shredder baler combinations / Packaging unit (PU) = 6 bottles

Product number	Contents
1235997403	Bottle 250 ml
1235997501	Canister 5 l

WG 30 Strapping tape / Tape clamps

Tear resistance: 280 kg / Packaging unit (PU) = box with 8 rolls / 24 PU = 1 pallet

Product number	For Model	Dimensions in mm (W x L)	Weight in kg
6205993010	WG 30 Strapping tape for SP 4988, SP 5088	8 mm x 500 m	2.2/piece
6127990101	Tape clamps, PU = 1000 pcs.	-	12

Notes on the technical details

Document shredders:

Cutting type:	The material is shredded into either strips or particles.
Cutting size in mm:	Dimension of the strips or particles of the shredded material (depending on the paper quality).
Cutting capacity in sheets:	The maximum number of sheets (DIN A4, 80 g/m ²), fed lengthways, which can be cut in one cycle. The performance data is determined when the motor is cold and the cutting device is freshly oiled. A weaker mains voltage or a different mains frequency to the one specified could result in less sheet capacity and increased noise during operation. The sheet capacity can vary depending on the structure and properties of the paper and on the way it is fed in. The performance data is calculated with paper of 80 g/m ² .
Security levels:	According to ISO/IEC 21964-1 (DIN 66399-1).
OMDD:	The OMDD (Optical Media Destruction Device) cutting unit shreds CDs and DVDs and is recommended for shredding confidential information by the Federal Office for Information Security.
Intake/working width in mm:	Maximum effective width of the feed opening.
Motor:	Max. power consumption of the shredder for cutting capacity with sheets of 80 g/m ² . Rated power of document shredder drive motor.
Voltage/frequency:	AC mains supply.
Dimensions (W x D x H):	External dimensions of the machine when set up for operation.
Weight in kg:	Net weight of the machine without packaging.
Container/collection volume:	Volume of waste container or collection capacity for cut material before the machine switches off.

Shredder baler combinations:

Pressing power:	Piston cylinder surface multiplied by the maximum hydraulic pressure (theoretical value).
Motor:	Rated power of document shredder and baling press drive motors.
Max. bale size (W x H x L):	The length of the bales varies depending on the expansion force of the compressed material.
Dimensions (W x D x H):	External dimensions of the machine when set up for operation.
Weight in kg:	Net weight without packaging, loaded material, feeding system or options.

Packaging machines:

Effective width in mm:	The maximum effective width of the feed opening.
Infeed height in mm:	Height of the intake opening.
Cutting capacity:	The number of layers of cardboard which can be cut in one cycle.
Cutting speed in mm/s:	This is calculated on the basis of the external diameter and speed of the cutting rollers in idle operation.
Motor:	Max. power consumption of the machine for cutting capacity / in layers
Voltage/frequency:	Three-phase/alternating current power supply.
Dimensions (W x D x H):	External dimensions of the machine when set up for operation.
Weight in kg:	Net weight of the machine without packaging and options.

Digital data media shredders:

Cutting capacity:	Max quantity of hard drives which can be shredded in one hour.
Cutting size in mm:	The dimensions of the particles that result from shredding the material.
Motor:	Rated power of digital data media shredder drive motor.
Voltage/frequency:	Three-phase/alternating current power supply.
Dimensions (W x D x H):	The external dimensions of the machine when set up for operation.
Weight in kg:	The net weight of the machine, without packaging and options.

Key to symbols

Materials that can also be shredded as well as paper:

 Staples and paper clips	 Credit and customer cards	 CDs/DVDs	 Discs
 Hard drives	 Magnetic tapes	 Folders	 USB sticks

Technical services:

 Motor	 Container/collection volume	 Intake width/working width	 three-phase power plug
