### Описание:

The paper feed with overload protection reduces paper jams and sustains the high throughput of paper.

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

The powerful motor ensures a high cutting capacity and reliable continuous operation (from HSM SECURIO HSM AF 150).

Useful dual function: during the autofeed stack processing, it is possible to manually feed paper at the same time.

In stand-by mode, intelligent control programme EcoSmart ensures there is an exceptionally low power consumption of 0.1 watts.

The waste container can be easily removed and emptied.

The quiet operating mode minimises noise development in the workplace which is an important consideration for your staff.

The high quality materials and proven HSM "Made in Germany" quality guarantee you are receiving a safe and durable machine – and also 3 years warranty.

The shredder can be intuitively operated with the multifunction element.

The document shredder with autofeed has a specially developed intake and transport rollers which use Nanogrip Technology. This enables sheet after sheet to be pulled in securely from the stack of paper.

For convenience, there are castors on the document shredder so it is easy to move around (from HSM SECURIO HSM AF 150).

The filling level of the waste container can be seen at all times through the inspection window.

The induction-hardened, solid steel cutting rollers with a lifetime warranty can easily cope with staples and paper clips and guarantee durability.

Stacks of paper can not only be shredded reliably and conveniently but also in a time-saving manner.
