cutting performance and reliable
continuous operation.

Описание:

An integrated light barrier automatically starts the device when paper is introduced into the feed and it automatically stops after shredding is complete.

In stand-by mode, intelligent control programme EcoSmart ensures there is an exceptionally low power consumption of 0.1 watts.

The document shredder has been awarded the Blue Angel certificate for its durable construction, low energy consumption and the use of environmentally friendly materials.

The quiet operating mode minimises noise development in the workplace which is an important consideration for your staff.

For convenience, there are castors on the document shredder so it is easy to move around.

The safety element prevents unintentional entry of materials into the machine and thereby increases the user safety.

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

The induction-hardened, solid steel cutting rollers with a lifetime warranty can easily cope with staples and paper clips and guarantee durability.

A separate collecting bag means that the shredder material can easily be sorted and separated for correct recycling.

The high quality materials and proven HSM "Made in Germany" quality guarantee you are receiving a safe and durable machine.

Durch das Sichtfenster ist der Füllstand des Auffangbehälters jederzeit einsehbar.
