Описание:

The full bin is indicated via the display and the machine switches off automatically.

Der Papiereinzug mit Überlastungsschutz reduziert Papierstau und erhält die hohe Durchsatzleistung.

An integrated light barrier automatically starts the device when paper is introduced into the feed and it automatically stops after shredding is complete.

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

The document shredder has been awarded the Blue Angel certificate for its durable construction, low energy consumption and the use of environmentally friendly materials.

A separate collecting bag means that the shredder material can easily be sorted and separated for correct recycling.

The powerful motor ensures high cutting performance and reliable continuous operation.

In stand-by mode, intelligent control programme EcoSmart ensures there is an exceptionally low power consumption of 0.1 watts.

After opening the door, the reusable collecting bag can be easily removed and emptied.

The document shredder has a sturdy cabinet with a wooden floor and an extra-large door opening angle which facilitates removing and replacing the collecting bag.

The quiet operating mode minimises noise development in the workplace which is an important consideration for your staff.

The high quality materials and proven HSM "Made in Germany" quality guarantee you are receiving a safe and durable machine.

The safety element prevents unintentional entry of materials into the machine and thereby increases the user safety.

Durch das Sichtfenster ist der Füllstand des Auffangbehälters jederzeit einsehbar.

The induction-hardened, solid steel cutting rollers with a lifetime warranty can easily cope with staples and paper clips and guarantee durability.
