### Описание:

The high quality materials and proven HSM "Made in Germany" quality guarantee you are receiving a safe and durable machine.

The full bin is indicated via the display and the machine switches off automatically.

This maintenance friendly document shredder has an integrated automatic oiler which ensures that you have a consistently high cutting

The powerful motor ensures a high cutting capacity and reliable continuous operation.

In stand-by mode, intelligent control programme EcoSmart ensures there is an exceptionally low power consumption of 0.1 watts.

After opening the door, the reusable collecting bag can be easily removed and emptied.

The document shredder has a sturdy cabinet with a wooden floor and an extra-large door opening angle which facilitates removing and replacing the collecting bag.

The innovative IntelligentDrive motor and operating technology offers three operating modes. Either for a particularly quiet, normal or a up to 40 % higher performance data destruction

Благодаря автоматическому предотвращению замятия бумаги устройство самостоятельно и заблаговременно распознаёт чрезмерное количество листов. В зависимости от их количества, шредер либо переходит в режим реверсивной работы, либо временно набирает мощность для беспрепятственного уничтожения документов.

Картонная коробка многоразового пользования в качестве корзины для уничтоженного материала.

The quiet operating mode minimises noise development in the workplace which is an important consideration for your staff.

A separate metal detection feature protects the cutting unit and stops the device if metal parts, such as staples, are inserted. These can be removed and the shredding process can continue.

The separate media cutting unit with a waste container effortlessly shreds CDs/DVDs, credit and loyalty cards as well as floppy discs into small particles (2 x 2 mm). The shredded material can then be disposed of with the waste materials already sorted.

User safety is paramount. A slight pressure on the safety element immediately stops the paper feed and prevents unintentional entry into the machine.

The operation is very easy: the device starts automatically when fed paper and automatically stops after shredding is complete.

Intuitive operation and multi-language menu selection via the high resolution 4,3" touch display. Relevant information such as operating modes and status reports are displayed. Consumable material, machine and contact details can be called up.

The induction-hardened, solid steel cutting rollers guarantee durability.

Durch das Sichtfenster ist der Füllstand des Auffangbehälters jederzeit einsehbar.
